## TERMS & CONDITIONS OF SALE

All prices are ex works. Carriage and VAT (if applicable) are extra.

**PAYMENT TERMS:** 30 days from date of invoice for approved account holders.

**PRICES:** We will endeavour to maintain the published prices but reserve the right to apply those ruling at time of despatch.

**SPECIFICATIONS:** All illustrations, descriptions, dimensions and capacities are for guide purposes only and may not conform in absolute detail.

Anmar Equipment reserve the right to alter specifications without incurring any obligation.

**RETURN OF GOODS:** Goods will only be accepted for return by prior agreement within 5 days of delivery. Return costs are payable by the buyer and any goods returned in a damaged state must be paid for in full by the buyer. Specifically made items will not be accepted back for credit.

**RETENTION OF OWNERSHIP:** Title of goods is reserved by the seller until full payment has been received. Until full payment has been made, the seller may at any time recover the goods and may enter the buyer's premises for this purpose, after giving notice of intention to repossess.

## SABRE SINGLE SKIN STEEL PARTITIONING

A high quality single skin steel partitioning suitable for factory, warehouse and shop floor offices and for storage and segregation areas.

**CONSTRUCTION:** Comprises 1.2mm thick channel uprights spot welded to panel skins and bolted together. Panel skin thickness is 0.7mm/1mm. Mesh is 50 x 50 x 3mm. Heavy duty top capping is supplied for lineal stability with additional strength coming from 50mm x 50mm RHS mullions fixed to floor with expansion bolts. Glazed panels incorporate steel 'clip-on' glazing beads which accommodate 4mm and 6mm glass.

**PANEL SECTIONS:** Full Steel, Steel/Glass, Steel/Glass/Steel, Steel/Mesh and Full Mesh.

**FINISH:** Partitions are finished in epoxy powder coated or stove enamelled to an average thickness of 70 microns.

**STANDARD COLOURS:** Sandstone (BS08B17) with optional Brown trim (BS08B29), Grey (BS00A05) with optional Black trim (BS00E53) or White (RAL 9010). Non-standard or corporate colours are available on request.

**STANDARD HEIGHTS:** 2438mm, 2743mm, 3048mm & 3658mm. Non-standard heights are available on request.

**DOORS:** Single or double side hung steel or timber. Sliding doors, single or bi-parting steel.

**SUSPENDED CEILINGS:** Complementary suspended ceilings in white exposed grid including lights and steel support beams can also be supplied.

## MACHINE GUARD

The mesh of the machine guard is very small only 48 x 30mm. The openings are not big enough to admit the hand of an adult so the sections can safely be located close to the machine. The machine guard reduces the necessary safety distance from the machine, thus saving valuable floor space.

- Small gauge mesh will not allow hands through
- Strong tubular steel frame
- 100mm ground clearance for easy cleaning
- Doors supplied with handles as standard. Other locking systems available upon request

### Product Specification

Mesh:	48 x 30mm	Wire diameter:	3mm
Frame:	20 x 30mm	Cross section:	25 x 25mm
Post:	60 x 40mm	Cross section:	2000mm long
Colour:	Yellow (RAL 1018) powder coating as standard.		

**PLEASE CONTACT OUR SALES OFFICE TO DISCUSS YOUR PARTICULAR REQUIREMENT.**

## EXCALIBUR DOUBLE SKIN STEEL PARTITIONING

A high quality double skin steel partitioning for industrial, commercial and office applications. System can be single or double glazed and incorporates a hidden wire management system.

**CONSTRUCTION:** Partitioning of monobloc construction with two steel skins separated by an inert mineral wool insulating infill. Removable skirting and vertical junction channels give access for wiring. Glazed panels incorporate steel 'clip-on' glazing beads which can accommodate glass from 4mm to 12mm thick. Double glazing can be provided with an optional integral venetian blind system.

**PANEL SECTIONS:** Full Steel, Steel/Glass, Steel/Glass/Steel, Fully Glazed, Transom Glazed, Chair Rail Glazed.

**STANDARD COLOURS:** Sandstone and Brown, Grey or White. Non-standard or corporate colours are available on request.

**FINISH:** Partitions are finished in epoxy powder coated or stove enamelled to an average thickness of 70 microns.

**DOORS:** Single or double side hung steel or timber. Sliding doors, single or bi-parting steel.

**FIRE RATED PARTITIONING:** Can be supplied to satisfy the integrity criteria specified in BS476: Part 22: 1987 for a period of 60 minutes for full steel panels and for a 30 minute period for panels containing apertures fitted with Georgian Wired glass.

**SUSPENDED CEILINGS:** Complementary suspended ceilings in white exposed grid including lights and steel support beams can also be supplied.

## PVC STRIP CURTAIN DOORS

- no limits in height and width of doors or separations
- excellent transparency, always clear view
- attrition - and aging resistant
- well-rounded edges
- cold-resistant qualities - special composition for cold-storage houses
- special dimensions on demand
- Stainless steel hinging system
- lasting protection against draught
- sound- and noise-absorbing
- standard strip dimensions
  - 200mm wide, 2mm thick
  - 300mm wide, 3mm thick
  - 400mm wide, 4mm thick
  - 400mm wide, 5mm thick

**Also available:**

PVC/Rubber Doors for light and heavy industrial use, internal and external openings.

**PLEASE CONTACT OUR SALES OFFICE TO DISCUSS YOUR PARTICULAR REQUIREMENT.**

## SYSTEM 26 OFFICE PARTITIONING

A high quality demountable partitioning system for areas where aesthetics are important.

System 26 is a 75mm thick partitioning system comprised of 2 x 12.5mm plasterboard panels incorporating a mineral wool insulation and finished in a wide choice of vinyl coverings. Both the internal and external structures are in aluminium. Visible profiles are in silver anodised finish but can be supplied in RAL colours if required. Joint covers are 26mm x 1.5mm and can be supplied with an optional underlining colour thread for enhanced aesthetics. Ceiling and floor runners are “U” shaped 26mm high. Panels can be full solid, fully glazed, half glazed or glazed above dado panel. Glazing can be single or double glazed with optional integral venetian blinds. Door frames with radiused section will indiscriminately receive wooden leafs. Hinges matched to profiles are adjustable in height and reversible right or left. Electrical skirting and posts may, on request, be incorporated into the partitioning to create a double wire rail on both sides.

## UNIVERSAL 98 FIRE RATED OFFICE PARTITIONING

Universal 98 is a high quality partitioning system 98mm thick. It is comprised of 2 x 13mm thick plasterboard panels on each side of a steel structure with mineral wool insulation providing for a 60 minute fire rating for full solid panels and a 30 minute fire rating for glazed panels and doors. Visible profiles are in silver anodised finish aluminium but can be supplied in RAL colours if required. The system can be single glazed or double glazed. Finished in a wide range of vinyl coverings, the system also supplies a high acoustic isolation.

**PLEASE CONTACT OUR SALES OFFICE TO DISCUSS YOUR PARTICULAR REQUIREMENT.**

## OFFICE SCREENING

### FOR THE OPEN SPACE OFFICE

A new concept of multidirectional low partition made to measure or according to predefined sizes. Its anodised aluminium structure offers a quality finish and a fluid design.

All types of filling are available in many colours: 19mm thickness wooden panels with coloured laminate finish, bright glass, tinted or lacquered.

**Large Range of Colours.**

## TOLEDO CLEANROOM PARTITIONING

Toledo is a double skin steel partitioning system designed with clean room applications in mind. With flush joints, this sealable two line system is ideal for use along with suitable air handling systems for working towards an ISO 14644-1 class 6 cleanroom environment. The system is fully demountable and gives multiple options on detailing to tailor to your needs. There are options for completely flush double glazing or standard gasket glazing along with options on floor detailing. These include coved skirting and standard U channel.

Panels and doors are supplied with a bonded composite infill and come with a void at the base to facilitate service cables. Standard heights are 2440mm, 2745mm and 3050mm but multi-lift options are also available.

Ranges of different locks, including digital and swipe card locks are available to suit a variety of needs and standards.

A wide range of RAL and BS colour matches are available as well as textured finishes to suit the application.

Complementary Double Skin Steel Ceilings (up to certain dimensions) and lay-in grid ceilings including light fittings are available.

The system uses a flush two line junction. It can be fully sealed using an appropriate mastic sealant for higher specification cleanrooms.

The range has several floor detail options. These include a standard U channel for the panels to sit in, or a coved skirting profile can be installed.

Flush glazing is supplied as standard. The flush glazing can incorporate 6mm toughened glass or 6.4mm laminated glass.

PLEASE CONTACT OUR SALES OFFICE TO DISCUSS YOUR PARTICULAR REQUIREMENT.

## WORK SPACE MODULAR WALL SYSTEM

The Work Space modular wall system makes it easy to customise an efficient work area. The sturdy service rail topping the 100-Wall, permits suspension of backup equipment such as hose reels, cable reels and extraction-at-source units with suction hood and filter. The leg elements are designed for vertical stepless

Our standard assortment includes perforated/non-perforated modules as well as half-size widths of 500mm. Non-standard heights up to 3000mm are also available. All are fully compatible for assembly in any combination.

adjustment of the bracket clamp supporting the profiled curtain holder. The bracket clamp has several other applications. The perforated wall panel makes it easy for a user to customise a toolboard with hardware bins, tool hooks and holders. We can assist clients with layout design and assembly under full warranty.

Other dimensions are available on demand. 100-wall and 60-wall systems are fully compatible. Standard module colour is RAL 1015 beige. Non-standard powder coating colours available on request.

### Modular Wall 60

### Modular Wall 100

Thickness 60mm.  
Height 2000mm.  
Thickness 100mm.  
Height 2400mm or 2750mm.

*Starter Units, Add-on units and Angle units come in widths of 1m, 2m & 3m.*

Screen provides simple, flexible solutions. When you need to screen off a temporary workspace, simply insert 60-wall modules in a sturdy floor support and secure with an attachment profile at the top. This assembly can be expanded with aluminium 60-wall modules. All our modules are fully compatible.

**PLEASE CONTACT OUR SALES OFFICE TO DISCUSS YOUR PARTICULAR REQUIREMENTS.**

# WORK SPACE MODULAR WALL SYSTEM

Modular Wall 60.

Modular Wall 100.

**Workshop Dividers** Yellow and Blue  
This divider panel is specially designed to accommodate heavy tools. It is made of sturdy sheet and can be accessorised with heavy duty hooks and tool holders.

## Portable Shields (wheeled panels)

All of our wall modules up to 2400mm in height can be equipped with wheels. Stepless mounts for the wheels allow panels with aluminium frames to be lowered close to the floor. Another option is our profiled docking device which can be mounted on the leg to get a close-fitting shield.

This arrangement also allows the shield to be docked snugly against the wall to create a work cubicle of optional size. The wheeled panels are easy to relocate.

*Please contact our sales office to discuss your particular requirement or to arrange a site visit.*

**Absorption Panel** is dimensioned to fit to standard wall modules. The panel is sheet metal on one side only. Each noise absorbing set consists of four absorption panels, one top profile and one bottom profile. Width 600 mm, Height 2000 mm. Part no. 901327.

Assembly is easy. Insert the panels in the premounted top and bottom profiles.

## Workshop Curtains

**PLEASE CONTACT OUR SALES OFFICE TO DISCUSS YOUR PARTICULAR REQUIREMENTS.**

# CUBICLES

**"Picasso" cubicles for wet and dry changing...** Picasso system offers a range of changing, wc and shower cubicles which are strong and durable yet stylish and aesthetic.

Available in a wide range of colours and finishes to suit all applications and design criteria.

## Material Specification

**SGL** - a high performance, self supporting solid grade laminate with two decorative faces and a black core, offering exceptional resistance to impact and moisture.

**MFC** - a melamine faced chipboard incorporating two decorative, low pressure melamine faces. A cost-effective solution for all non-wet area applications.

**GL** - constructed using toughened glass from a choice of patterned finishes.

Please contact our sales office to discuss your particular requirements.

## Options

- 1 Choice of panel construction
- 2 Choice of aluminium or stainless steel fittings
- 3 Choice of height, depth and width
- 4 choice of colours and finish
- 5 Supply only or supply and fit

**Cubicle height from 1200 - 2000 mm**

**Cubicle width from 500 - 1200 mm**

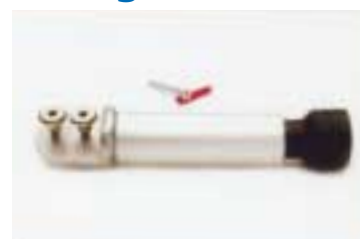

**Cubicle Depth from 1000 - 2500 mm**

**Door Width: 600/800mm**

**Ground clearance: 150 mm**

**Thickness: 8/12/13/19/20mm**

# SHELTERS

## Bicycle / Outside Shelter

### Structure:

Powder coated steel box construction available in a range of colours.

### Roof & Side Walls:

Clear polycarbonate sheet, which is impact resistant. Tinted, patterned or opal polycarbonate is available on an extended delivery. Bespoke sizes also available.

**Motorcycle and Cycle Shelter** is a free standing shelter for protection from the elements. Installation service also available.

4.1m x 2.4m	€5250.00
5.2m x 2.4m	€6038.00
10.2m x 2.4m	€9188.00
Bicycle Rack	€81.00

## Traffic-Line 4 Bicycle Rack

For 4 bicycles

General design with 4 parking places. Suitable for all types of bicycles (including mountain bikes with max. tyre width of 55mm). Can be accessed from either side, dependent on location. Supplied as fully assembled unit ready for immediate use.

## Smoking Shelter

- Keep smoking outside your building without penalising smokers
- Helps improve morale, health and productivity
- Controls where staff smoke
- A realistic solution for 'No Smoking Premises' and their smoking workers
- 4 sided free standing or 3 sided for back to wall fixing
- Modular design allows 6 standard sizes
- Easy to assemble
- Installation Service available

### Construction:

- Frame - 40mm square aluminium tube, polyester/epoxy powder coated
- Side glazing 6mm PETG Polyester
- Domed roof 10mm double-wall strengthened polycarbonate

Size Width & Length	3 Sided Code	Price	4 sided Code	Price

See page 75 for details on ash trays.

## Perch Seating

Takes the weight off tired feet for short breaks

Black Polyester/epoxy coated  
Stainless Steel  
900mm high x 1150mm wide x 300mm deep

Code	Height	Price
D30	Perch Seat	€231.00

## MEZZANINE FLOORS

Mezzanine floors provide a cost effective way of utilising overhead space within buildings to provide increased storage, production or office space.

Decking can be 38mm high density tongued and grooved particle board, chequer plate, open mesh grid or heavy duty plywood. Floors can also be fire rated.

## MOBILE SHELVING

Mobile shelving is a cost effective method of utilising floor space. Mobile systems can double the capacity for filing and storage and free up valuable floor space for workstations. Mobiles help to increase file retrieval times and general office efficiency and can be designed to provide general office filing or large scale archiving in a limited space.

The unique Monotrak mobile system operates on a single guide track fitted directly to your existing floor without the need for extensive and often costly site work. Installation is a simple process that leaves floor coverings completely intact and with no residual mess, especially important if you need to relocate the system at a later date.

With no tracks in the aisles, there are no trip hazards. No cumbersome false floors are needed to enclose the tracks. The unique method of spreading the load means reduced point loads which widens its field of use.

It operates directly on most raised computer floors without additional reinforcement or other costly site work.

Monotrak is used in conjunction with our Profile Shelving detailed on Page 19.

66 bays of 7 level Rackline mobile shelving will hold 462 linear metres on 35 sq.m. of floor space. 3.5 times more capacity than traditional filing cabinets.

33 bays of 7 level Rackline mobile shelving will hold 231 linear metres on 17.5 sq.m. of floor space. The 50% of the floor space saved could be used for office usage.

**PLEASE CONTACT OUR SALES OFFICE TO DISCUSS YOUR PARTICULAR REQUIREMENT.**

### Master Pallet Racking

End frame height options: From 2m to 13m in 500mm increments.  
Box beam width options: 1350mm, 1500mm, 1800mm, 2000mm, 2200mm, 2500mm, 2700mm, 3000mm, 3300mm and 3600mm

An innovative and high performance racking system which meets the needs of most applications. All structural elements are of high tensile steel and conform to EN10204. End frames come in 70mm, 100mm or 130mm face width depending on the loading capacity required, and are finished with a Sendzimer zinc plating to give a highly aesthetic and long lasting appearance. Box beams are adjustable on 50mm centres and range in capacity from 165 kgs to 4000 kgs for uniformly distributed loads and have a painted finish in blue or red colour.

### Drive-In Racking

Drive-in racking eliminates the need for aisles and provides for large storage capacity in reduced floor space.

**See our range of Pallet Racking Markers on pages 62 - 70**

### Cantilever Racking

Cantilever racking is ideal for storage of long and awkward loads which are unsuited to conventional racking

**Please contact our Sales Office to discuss your particular requirements or to request a site visit.**

# PALLET RACKING ACCESSORIES

## MESH ANTI COLLAPSE

The Anti-Collapse System represents a simple preventative measure which has helped avoid many accidents in the handling of pallets. The mesh wire is mounted on brackets designed to fit onto the back of the rack. The product can be adapted to suit a wide variety of situations. The mesh is all-welded.

Finished as standard with extra-tough, grey paint. The grey colour conceals dirt, dust and damage, and therefore ensures a clean, neat appearance for many years ahead. The elements can also be supplied in other RAL colours.

## MESH DECKING SHELVES

Z-profile mesh shelving fits tightly onto existing pallet racking due to its weight and unique profile design. The shelves simply drop onto the pallet rack beams and are kept in place by the weight of the shelf. The wire mesh does not accumulate dust and allows for light to filter through the apertures.

The shelves are made to order to fit specific dimensions of pallet racking and can accommodate a variety of loading capacities. Z-profile shelves are currently available in four different loading capacities: 125, 250, 500 and 1,000 kg; however, other loading capacities are available upon request.

## STEEL FRAME PROTECTION

Back Stops

Powder coated yellow/black. 400 mm high. Surface fixing.		Dimensions Height/Width (mm)	Treatment	Price

Tubular Divider and 200mm Plain Decking Panel

Tubular Divider with Mesh Infill

## **“GENIUS” CUSTOMISED SHELVING SYSTEM**

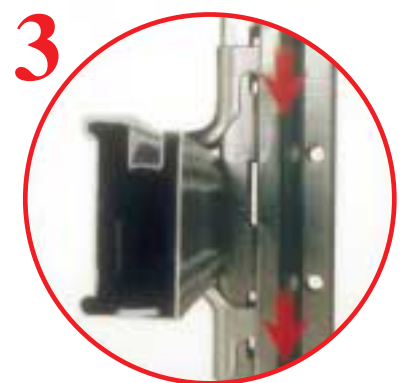

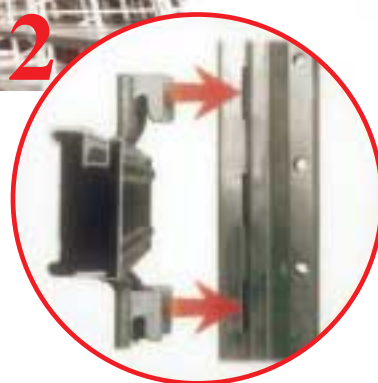

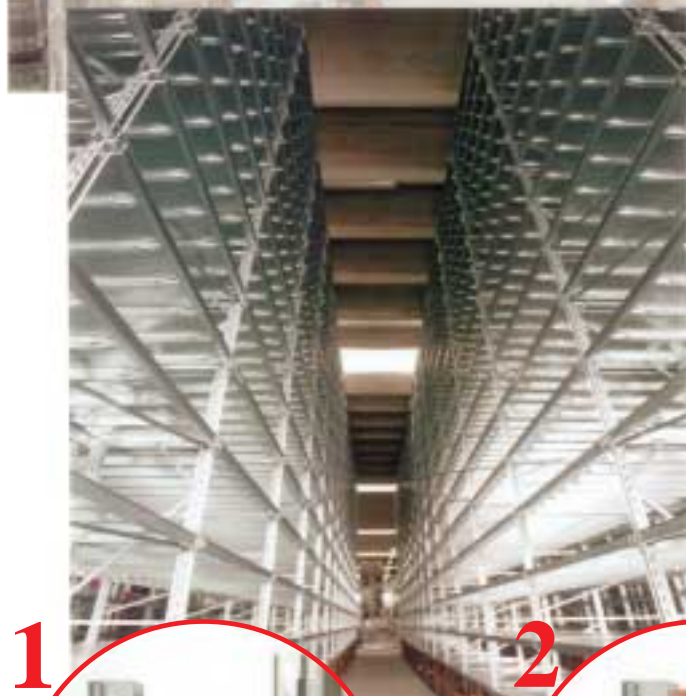

A new, unique and highly innovative shelving system which removes the restrictions imposed by “standard beam lengths”. The beam section comes in lengths from 3m to 8m and can be cut to suit your particular application allowing for complete and total utilisation of space no matter how restricted.

End frames come in light, medium and heavy duty and range in height from 2m to 10m in 500mm increments. Bay depths come in 350mm, 400mm, 500mm, 600mm, 800mm, 1000mm and 1200mm with the option of solid or slatted decking. Capacity per level ranges from 125kgs to 750kgs depending on type of end frame and distance between frames.

The galvanised finish gives the system a long lasting and highly aesthetic “cleanline” appearance.

To discuss your particular requirements or to arrange a site visit, please contact our Sales Office.

“Genius” – the shelving system that lives up to its name.

# PLASTIC SHELVING

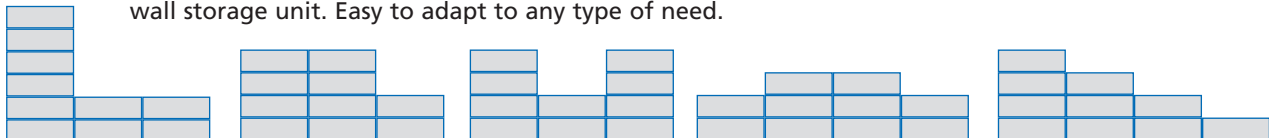

## Workline Shelving

- Shelving unit in synthetic resin

  - 1 hook to hang various products (total: 5 hooks)
  - 1 storage box to store various small items (total: 5 boxes)

1750mm Height x 1100mm Width x 400mm Depth €75.00  
 1750mm Height x 1400mm Width x 400mm Depth €88.00

## PLASTIC SHELVING

### ModulUp Flexible and Simple

The ideal shelving system for garages, tool sheds, stores, workshops, offices, cold stores and those awkward areas.

Not only is it economical, but it is extremely hard wearing and able to withstand very heavy loads.

Made from resin and PVC, it is resistant to household chemicals and able to withstand extreme ranges in temperature.

A shelving system that can be fine tuned to meet your needs!

Both the shelves and the supports can be custom fit to meet your requirements and allow for precise fitting.

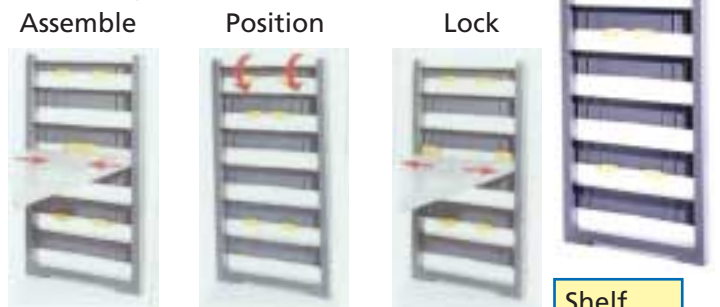

Shelf 39 x 107 cm	€9.75
Shelf 39 x 230 cm	€19.00

The floor standing supports can be stacked on top of each other and there are no limits on width or height.

Assembly couldn't be simpler.

Shelf Support 85cm
€11.25

## PLASTIC CUPBOARDS

850mm x 860mm x 430mm	
K.D.	€70.00
Assembled	€90.00

1750mm x 860mm x 430mm	
K.D.	€99.00
Assembled	€119.00

- Cupboards in synthetic resin
- Material:
  - doors, sides, back, bottom and top in PVC
  - finition parts in polypropylene
  - Colours: Grey/blue
- High-width Cabinet (860mm), allows a high volume of storage
- 100% of the volume is optimised
- Each shelf holds up to 30 kg
- Lockable doors
- Assembled in 20 minutes with a simple screwdriver (can be supplied fully assembled)
- Humidity resistant
- Blends in with our MaximUp Shelving for highly aesthetic layout.

## IDEA '5' BOLTLESS SHELVING

A robust simple to assemble innovative shelving system with a highly aesthetic Sendzimer Galvanised finished. The uprights have edged sides for forming runs or for double depth assemblies. The shelves have oblique holes on the vertical walls for joining to the uprights. Shelves have a 30mm fold and a further bend on their longitudinal edge to prevent injury when handling and assembling. All bays are priced with 6 shelves as standard.

300mm deep shelving also available.

\*Includes 1 set of stabilising cross bracing.

Cross bracing set required for every 3rd bay in continuous runs

€6.00 extra per set.

Full installation service available if required.

## PROFILE SHELVING

Profile is a highly aesthetic and adaptable shelving system suitable for office environments. Engineered for strength, the uprights and shelves work together superbly to provide a bay load of 750 kgs and a standard shelf load of 125 kgs, powerful enough for the most demanding of applications. With shelves adjustable at 25mm pitch and a wide range of clip-in accessories, the standard system can be converted to the widest range of applications: Central Filing, Medical Records, Pharmacies, Legal Offices, Retail Stockrooms, Museums, Archives, Libraries, General Offices and many more. Finish is white smoke polyester epoxy powder paint which has superb light reflecting qualities and does not show up dust.

**SHELVES:** Can be plain or punched for dividers. The front flange is 30mm and each standard shelf has a capacity of 125 kegs.

**UPRIGHTS:** With a front of 20mm and a bay load of 750 kgs, the uprights are slotted for shelf adjustment every 25mm.

**BAY HEIGHT OPTIONS:** 1575mm, 1875mm, 2175mm, 2475mm and 2775mm.

**BAY WIDTH OPTIONS:** 600mm, 900mm, 1000mm and 1200mm.

**BAY DEPTH OPTIONS:** 250mm, 300mm, 400mm, 450mm, 500mm and 600mm.

**BACKS:** Can be fully closed with steel back sheets or have open back braces.

## DOCUMENT STORAGE & FILING

### Archive Storage - Heavy Duty

Tough, durable shelving complete with archive boxes.

**Quick and easy tap-together assembly – no nuts, bolts or rivets**

**Available in 2 heights and 4 different widths**

**Single or double box depths**

**Feet and top caps included**

#### Shelving made E-Zee

Using add-on bays is the cheapest way to increase your archiving capacity and as long as the height and depth are the same as your starter bay you can use any width add-on to perfectly fit your space.

Unlike shelving that uses 90° angle posts, boxes at the ends are accessible

# DOCUMENT STORAGE AND FILING

Active and Box Bay

Active Filing Bay

Optional pull-out shelf

Lateral & Box Filing Bay

## Active Filing Bays

Designed for the presentation and rapid location of work in progress paperwork.

- Complete with active file boxes to create on-shelf compartments
- Easy to build – no nuts, bolts or rivets
- Attractive soft grey finish
- Feet and top caps included
- Optional pull-out reference shelf – makes viewing files easy

Code	Description	Overall H x W x D	Price Each
BAVF101	Active Filing Bay	2000 x 990 x 380mm	€240.00
BAVF102	Active & Box Bay	2000 x 990 x 380mm	€246.00
BAVF103	Reference Shelf	915 x 305mm	€33.00

**Note:** Files not included

## Lateral & Box Filing Bay

Combines current filing with archive – great for smaller offices.

- Strong, rigid system
- Easy to build – no nuts, bolts or rivets
- Attractive soft grey finish
- Complete with 6 archive boxes
- Feet and top caps included
- Use end panels to enhance appearance
- Optional pull-out shelf – makes viewing files easy

Code	Description	Overall H x W x D	Price Each
BLBF101	Lateral & Box Bay	1830 x 990 x 380mm	€262.00
BLBF102	End Panel	1830 x 380mm	€30.00
BLBF103	Reference Shelf	915 x 305mm	€33.00

**Note:** Lateral Files not included

## Suspension & Box Filing Bay

Pull-out filing cradles and document box storage in one.

- Easy to build – assembles in minutes
- Attractive soft grey finish
- Complete with 6 archive boxes
- Feet and top caps included
- Optional pull-out reference shelf – makes viewing files easy

## Desk Height Suspension Bay

A useful extension to any busy desk.

- Steel, desk height top shelf
- 2 pull-out filing cradles
- Feet and top caps included
- Use end panels to enhance appearance

**Details on request.**

Max capacity: 2 persons plus tools, 400kg  
Unladen Weight: 95Kg Colour: Safety Yellow  
Conforms to: PM28

#### Dimensions:

Cage Size: (W) 1000 x (D) 1000mm x (H) 2100mm

#### Fork Lift:

Fork guide size: 180 x 75 @ 660mm fork centres  
Minimum truck rating: 1000Kg @ 600mm load centre  
Price €725.00

## PLASTIC DRUM STORAGE SYSTEMS

### Durable and easy to clean

Our moulded plastic sump pallets can retain up to 350 Litres of chemicals, oils or other hazardous liquids and are supplied in a bright yellow colour for safety. The pallets are designed to store up to 4 x 205 litre drums vertically or 2 x 205 litre horizontally with an optional drum saddle. The saddles can be easily attached with a clip on mechanism.

Manufactured from heavy-duty non-corrosive plastic, the pallets feature a robust galvanised steel grill to offer maximum strength. The grill is easily removable to allow access for cleaning. Other features include fork lift entry and an optional stacking system to store the pallets when empty.

#### Optional Accessories:

- 'Clip on' drum saddles for horizontal drum storage
- Stacking system

Description	Drum Capacity (205 Litre)	Sump Capacity (Litre)	% of Max	Price
Plastic Sump Pallet	4 – Vertical	350	43%	€501.00
Saddle to convert to 1 drum horizontal use	1 – Horizontal	N/A	N/A	€134.00
Saddle to convert to 2 drum horizontal use	2 – Horizontal	N/A	N/A	€223.00

## METAL SUMP PALLETS

### Robust and safe storage for your drums

Our metal sump pallets offer a robust alternative to our plastic sumps. They are designed to contain at least 25% of the total volume stored or 110% of the largest container whichever is greater. The pallets are available to store one, two or four 205 litre drums. A solution for IBC containers is also available. Manufactured from heavy-duty steel, the pallets feature a robust galvanised steel grill to offer maximum strength. The grill is easily removable to allow access for cleaning. Other features include forklift entry and a stacking option for the two & four drum sumps to store the pallets when empty. A hardwearing alternative to plastic sump pallets.

**Enclosed Models also available. Details on request.**

#### Features include:

- Manufactured from robust steel
- Stores up to 4 drums vertically or 1 x IBC
- Holds at least 230 litres of spillage
- Fork guides for a safe and secure lift
- Stackable (2 & 4 Drum units only)

#### Optional Accessories:

- Colour change
- Drum saddles for horizontal drum storage

Description	Drum Capacity (205 Litre)	Length (mm)	Width (mm)	Height (mm)	Sump Capacity (Litre)	% of Max	Price
Metal Sump Pallet	1 - Vertical	800	800	510	230	110%	€561.00
Metal Sump Pallet	2 - Vertical	1500	700	360	230	56%	€725.00
Metal Sump Pallet	4 - Vertical	1500	1250	360	410	50%	€835.00
Metal Sump Pallet	1 - IBC	1500	1500	510	1100	110%	€1335.00

## SELF TIPPING SKIPS

### Durable, low-maintenance heavy duty skips

This equipment is suitable for heavier industrial use in factories, warehouses and on building sites. Our skips are designed for forklift truck emptying and will handle almost any kind of material.

The self-tipping skips can be emptied by lifting from the rear or either side and are designed for long and hard service. If you are looking for a good quality skip at an exceptional price look no further.

#### Features include:

- Easy fork mounting
- No forklift modification
- Robust fork guides for security
- Self-locking return mechanism
- Heavy duty castors for easy manoeuvrability (025 & 050 models only)
- Tips in-line or to either side (025 & 050 models only)

#### Overall sizes of the Self-Tipping Skips: (mm)

Model	Length	Width	Height	Price
<b>025</b>	1,390	820	900	€913.00
<b>050</b>	1,740	1,030	1,040	€1068.00
* <b>100</b>	2,100	1,310	1,060	€1468.00
* <b>120</b>	2,080	1,310	1,180	€1589.00
* <b>150</b>	2,390	1,490	1,180	€1710.00

\* One way entry only.

## MINI SELF EMPTYING SKIPS

### Go anywhere, low-maintenance hoppers

Mini in name, mighty in action, these go anywhere compact skips have been designed to facilitate the easy collection of scrap in confined areas. Whilst being strong and robust in design, their manoeuvrability, light weight and overall dimensions allow them to fit where other skips can't. The removal of production waste is a lot easier using a Mini Skip.

Our Mini Skips are most suitable for use in production areas where space is limited, e.g. under power presses and other production machines.

#### Features include:

- Easy fork mounting
- Pedestrian operated
- Self-locking tipping mechanism
- Low maintenance
- Safe and secure in use

#### Go anywhere:

- Under power presses
- Under turret presses
- Under guillotines
- Under drilling machines
- Under cut off saws
- Under routing machines
- Under work stations
- And under many more...

#### Optional Extras Available:

Options available for all models	Part No.
Oil tight tested	OT
Oil drain tap	OD
Colour change	CC
Special castors	SC
Stainless steel	SS

#### Overall sizes of the Mini Skips: (mm)

Model	Length	Width	Height	Price
<b>AMS-450</b>	1,390	820	900	€708.00
<b>AMS-600</b>	1,740	1,030	1,040	€725.00
<b>AMS-750</b>	2,100	1,310	1,060	€749.00

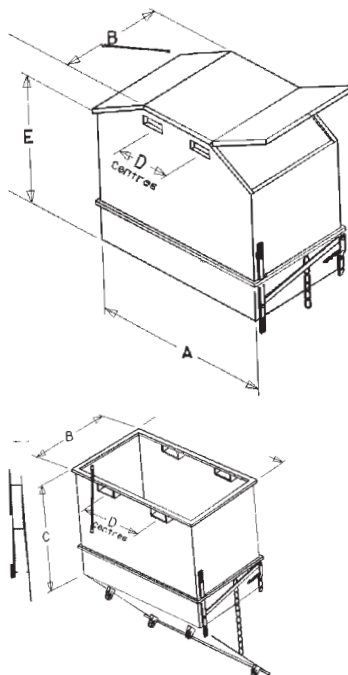

#### Important Recommendation:

**The total weight of the skip plus load should not exceed 50% of the fork truck rating. Consideration should be given to the fact that the centre of gravity of the load will move forwards when tipping.**

# BINS

## HANDY BINS

The efficient method of handling lightweight and bulky production waste

Our Handy Bins enable fast and clean waste removal. Just fill it up, push it out of the way and use a forklift to dump or stack it on the optional special plinth.

Designed with a clear open top, drop-bottom base panel and self-closing latches this is an ideal tool for disposing of all kinds of light production waste.

The reinforced fork guides are mounted at the top of the Handy Bin to provide a clear exit when emptying. The standard finish for these mobile units is safety yellow or green gloss paint on an anti-corrosive primer base.

### Features include:

- Safe and secure in use
- Open top for fast loading
- Castors for easy manoeuvrability (AHB-10 & AHB-15 only)
- Drop bottom base with self-closing latches
- Pedestrian operation avoiding continual use of forklift

## TIDY BINS

Protection from fire and pollution – Environmentally friendly

Tidy Bins are ideal for light waste in your warehouse or factory and feature two top opening doors. The Bins are emptied via a drop bottom base, which incorporates self-closing latches. Fully enclosed fork guides are mounted at the top to enable a completely clear exit of the waste. The bins are fitted with heavy-duty castors to ensure easy manoeuvrability. Available in attractive yellow or green gloss finish on a primer base, these attachments will offer you speedy and efficient waste removal.

### Features include:

- Safe and secure in use
- Castors for easy manoeuvrability
- Pedestrian operation avoiding continual use of forklift
- No fork lift modification required

## DEMOUNTABLE ROLL PALLETS

Demountable Roll Pallets maximise available space by dismantling to a fraction of their assembled size when not in use. This makes the units ideal for return packaging or where space is at a premium. Available in a variety of sizes and specifications to suit the majority of needs, all our Roll Pallets feature:

- Smooth running nylon castors with roller bearings
- Strong reinforced design
- Bright electro zinc plated finished
- Hygienic - can be steam cleaned or pressure washed
- Available with 2, 3 or 4 sides and optional shelves

Highly manoeuvrable and an ideal size for use on delivery vehicles or for order picking in racking/shelving aisles. Fitted with 2 fixed and 2 swivel 100mm diameter nylon roller bearing castors. Standard capacity is 500 kg.

See pages 69-70  
for Label Holders  
and Pallet Marking

Standard Demountables, collapsed and nested

### SECURITY DEMOUNTABLE ROLL PALLETS

These units feature a reinforced base with 4 sides and a lid infilled with durable 50mm x 50mm x 3mm mesh. Front door can be sealed or padlocked to ensure the security of contents. Ideal for handling high value or pilferable products both in house and through the distribution chain. Attractive bright electro zinc plated finish and fitted with 2 fixed and 2 swivel 100mm diameter nylon roller bearing castors. Can be supplied with removable shelves. Standard capacity of 500 kg.

# CLEARBOX

The ideal dust free storage and display system for the warehouse, workshop or the retail trade. Each unit contains a number of removable transparent inner compartments suitable for a wide range of items.

All units have a common width of 600mm, and are available in 6 sizes, each providing a different number of compartments suitable for a range of small components.

To provide the ultimate in flexibility of application, Clearbox can be fixed directly to a wall, fitted to free-standing metal racks (single or double sided), housed in robust steel cabinet units, mounted on a double sided trolley, or simply fixed to a central plinth to provide a portable unit.

Whatever the format Clearbox provides the answer.

- Flexible – suitable for a variety of uses and applications.
- Non-Toxic – suitable for use with food stuffs.
- Strong – outer body manufactured from high-impact polystyrene plastic and inner compartments from ABS plastic.
- Order picking – tilting transparent compartments allow easy retrieval of items with maximum display potential.

# ALLIBIN PLASTIC CONTAINERS

Available in four attractive colours, from 0,33 to 70 litres capacity, easy access Allibins provide a versatile storage system for all your small parts and components.

Allibins securely stack or clip onto free-standing racks, mobile trolleys and wall mounted panels.

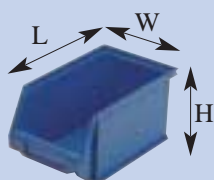

Optional dividers on larger models make allibins even more versatile.

An integral Label holder provides identification of contents. Containers can also be hot-foil printed with company logo and message.

The open front allows easy access to contents even when stacked.

For the efficient storage of small parts and components in factory, garage, stores, van, warehouse or workshop - Allibins are the ideal answer!

Dim: 495 x 1,160 x 762mm  
€269.00

**Ref. 7ATD4 (PV=72 / side)**

Double-sided trolley  
Dim: 950 x 1,160 x 762mm  
€359.00

**Ref. 7ATD6 (PV=72 / side)**

Single-sided trolley  
Dim: 950 x 1,676 x 762mm  
€440.00

## PV = Panel Value - AV = Allibin Value

To calculate the number of Allibins that will fit on each panel, simply divide the PV by the AV - e.g. louvered panel ref. 71AP2 with a PV of 36 will take 12 Allibins ref. 71009 which have an AV of 3 (36 / 3=12). Double-sides racks and trolleys will take twice the quantity of Allibins.

As a guide, any combination of Allibins can be fitted, as long as the combined AV does not exceed the PV - e.g. louvered panel ref. 71AP2 with PV of 36 will take 6 Allibins ref. 71004 (AV;2) + 6 allibins ref.71013 (AV; 4)

## Maestro Pallets

**Maestro** has been developed to meet all pallet storage, handling and distribution requirements:

- Hygienic design ideal for handling and distribution of food product and pharmaceuticals.
- Safely handles heavy or delicate loads.
- Compatible with automated and manual handling equipment.
- Light and strong, ideal for closed loop and multiple trip logistics operations.
- RFID, bar code or label identification for compatibility with all types of storage and logistics operations.

### Pallet loading - for evenly distributed load

	Static Load	Dynamic Load	Racked Load
<b>1200 x 800 - 3 runners</b>			
Standard pallet:	5,000 kg	1,200 kg	1,000 kg
Steel reinforced:	5,000 kg	1,500 kg	1,400 kg
<b>1200 x 1000 - 3 runners</b>			
Standard pallet:	5,000 kg	1,500 kg	1,200 kg
Steel reinforced:	5,000 kg	2,000 kg	1,600 kg

depending on type and configuration of load.

## Maestro 1200 x 800 with 3 runners

**Ref. 3L300** €114.00

Wt. 31.2 Kg Col: grey €156.00

# PALLETS

## All'i'grip Maestro, the ideal pallet for all applications.

Thanks to its contact adherence loads are held securely on the pallet, and the pallet in turn will not slide on the floor, pallet racking or on conveyors.

- The anti-slip deck prevents loads sliding off the pallet, causing damage to the load and injury to personnel.
- Whatever the nature and shape of the load, its whole contact area rests on the anti-slip surface.
- Anti-slip runners are also an important safety feature, limiting the movement of the pallet should it be accidentally knocked on racking or when block stacked.
- The runners also prevent the pallet from sliding on smooth floor surfaces and slipping on conveyor rollers.
- Alligrip is ideal for industries such as food, pharmaceutical and automotive where cleanliness

and hygiene are paramount, and is strong yet light enough to be used for closed loop and multi-trip logistics.

- Reinforced models (with strong steel bars encapsulated within the pallet shell) rack loads of up to 1.4 tonnes.
- As with the rest of the Maestro pallet range Alligrip has no texturing or traps that can harbour dirt or bugs, rounded corners allow secure stretch-wrapping of loads, anchoring points secure pallet cover strips and bevelled runners provide easy access for pallet truck rollers. Tamper-proof RFID tags can also be incorporated into the feet for lifetime tracking.

	Static load*	Dynamic Load*	Racking Load*
1200 x 800 pallet with 3 runners			
• without reinforcement	5,000 Kg	600 Kg	500 Kg
• reinforced with integral steel bars	5,000 Kg	1,300 Kg	1,200 Kg
1200 x 1000 pallet with 3 & 5 runners			
• without reinforcement	5,000 Kg	800 Kg	600 Kg
• reinforced with integral steel bars	5,000 Kg	1,600 Kg	1,400 Kg

\*Depending on type and configuration of load

### 1200 x 800 with 3 runners

**Ref. 3L310** €119.00

**Dim:** 1,200 x 1,000 x 158 mm  
**Weight:** 30.7 Kg  
**Colour:** dark blue / blue  
**Suitable for deep freezing**

## The distribution pallet

- Strong and light for intensive trippage.
- Empty pallets with 9 feet nest to 62% of overall height, saving valuable space on return transport (one stack of 34 nested pallets measures less than 2 metres).
- Packpal with perimeter runners can be used for racking evenly distributed loads of up to 350 kg.
- Strong, durable, hygienic, constant tare and unlike timber pallets they will not warp, rot or absorb moisture.

*Nesting to 62%, saving valuable space on return transport.*

3R models have 3 runners. 9F models have 9 feet and will nest when empty saving valuable space on return journey. Dynamic Loading: 500kgs. Static Loading: 1000kgs.

Model	Dims (mm)	Deck	Weight	Price

### Technical Information

- Manufactured from 100% medium density food grade polyethylene.
- Lids available for all trucks.
- Colours available: Red, Orange, Blue, Green, Yellow, White, Natural, Grey, Black.
- Ref's RB0317 and RB0412 are supplied with a plastic base for extra strength.
- Temperature range: -20 to +60 degrees centigrade.
- References RB0003, RB0120 and RB0121 are fitted with 4 x 75mm swivel castors.
- Reference RB0227 is fitted with 4 x 100mm swivel castors.
- References RB0317 and RB0412 are fitted with 2 x 100mm fixed and 2 x 100mm swivel castors.

## TOTE TRUCK

The Tote Truck is stackable, nestable, and fork-liftable.

Moulded in strong medium density polyethylene, the truck is also water resistant and is available with either a flat or a hinged lid. (Please specify when ordering.)

## PALLET TANKS

- Will suit the forks of most trucks.
- Three models are slightly tapered and will nest when empty to save valuable storage space. All models will stack when fitted with a lid.
- It is recommended that liquid contents should not exceed more than a third of the tank's capacity, especially if being moved by forklift.
- NB: The feet of the Pallet Tanks are hollow.

Colour: Natural.

## ADJUSTABLE HEIGHT STANDS

Height Range	Code	Price
310-420mm	Z450525	s€75.00
410-575mm	Z525600	€77.00
565-880mm	Z600675	€100.00
800-1080mm	Z675750	€104.00
1040-1330mm	Z750825	€111.00

- Support stands required every 1500mm.
- To ascertain roller pitch, divide length of load by 3.5 (load must be in contact with minimum of 3 rollers).

For prices on 100kg & 150kg capacity steel roller conveyor, 10kg & 12kg capacity plastic roller conveyor, skatowheel conveyor and ball transfer table units, please contact our sales office.

# WAREHOUSE PROTECTION

## TRAFFIC-LINE Steel Hoop Guards

Steel hoop guards for the protection and segregation of vulnerable zones. For internal and external use. Versatile, suitable for the protection of pedestrian areas (entrances, doors, entry gates) and machinery, the fencing off of danger areas in factories, and the segregation of vehicular traffic from pedestrian walkways, etc.

Height: 1,000 mm.

Lengths: 1,000, 1,500 or 2,000 mm.

Tube: 48 mm Ø; Wall thickness: 2 mm.

Surface finish:

- For external use: Hot-dip, galvanised and powder-coated.
  - For internal use: Primed and powder-coated.
- Bent steel tube with additional reinforcing crossbar. Finished in signal yellow with black stripes. For surface mounting with heavy duty base plates (70/60/10 mm) drilled for fixing bolts. (Bolts supplied on request at extra cost.) Special lengths and colours, as well as models for sub-surface fixing available on request.

Steel hoop guards: 48/2mm. Surface fixing.	Finish	Height/length (mm)	Treatment	Price
	Yellow with black stripes	1,000 / 1,000	Powder coated	€179.00
			Hot dip galvanised and powder coated	€225.00

Surface Fixing Bolts  
4 per Guard €1.85 ea.

## TRAFFIC-LINE Protection Guards

High impact protection guards:  
Manufactured in 3mm gauge quality steel.

Protects stock, traffic routes, and work areas, separates different traffic routes (e.g. stacker lanes in warehouses and passenger traffic).

Protects machinery, column supports, shelves, loading ramps, equipment etc.

Surface finishes:

- Hot-dip galvanised and yellow powder coated with black stripes for exterior use.
- Primed and yellow powder coated with black stripes for interior use.

Installation is by means of either surface mounting using fixing bolts (available at extra cost), or permanently concreted into the ground to a depth of 300 mm.

Dimensions: 76 mm dia. with three heights: 300, 600 or 1,200 mm and three widths: 375, 750 or 1,000 mm.

(Special sizes can be manufactured on request).

Steel guards 76/3.0 mm Surface fixing	Finish	Dimensions height/width (mm)	Treatment	Price		
	Yellow with black stripes – surface fixing plate	350 / 1,000	Hot dip galvanised and powder coated	€204.00

# WAREHOUSE PROTECTION

## TRAFFIC-LINE Protection Bars

Prevents damage by lift trucks, roller containers, transport trolleys, pallet trucks etc. Protects shelves, cabinets, etc. against damage from collision. Protects wall-mounted protruding equipment (instruments, switch cabinets, first-aid equipment, etc.) Low profile design for easy pedestrian access to protected areas.

Dimensions: 76 mm Ø.

Wall thickness 3 mm, overall height 86 mm.

Standard Lengths: 400, 800 or 1,200 mm.

Thick-walled tube in high-grade steel, with bevelled ends. Surface mounted, with extra strength base plates (10 mm gauge). Primed and powder coated yellow with black signalling stripes. Special lengths, colours, and models for permanent fixing in concrete are available on request.

Height/length (mm)	Treatment	Price
86 / 400	Powder coated	€81.00
86 / 800	Powder coated	€105.00
86 / 1,200	Powder coated	€129.00

## TRAFFIC-LINE Collision Protection Bollards

### TRAFFIC-LINE Protection Bollards

High impact internal or external Heavy Duty bollard: manufactured in 4.5 mm gauge quality steel. Effective in prevention of accidental damage, TRAFFIC-LINE Protection Bollards protect machines, pillars, supports, columns, shelves, ramps, etc.

With a diameter of 159 mm, which enables them to absorb extremely high impacts, TRAFFIC-LINE Protection Bollards are also particularly suited to other areas, such as entrances, exits, corners of buildings etc., where for example fork-lift trucks, stacker trucks and other warehouse traffic operate.

NEW: Now also available in 80 mm Ø with a wall thickness of 4 mm – for use in areas where space is limited or where cost is a consideration.

All TRAFFIC-LINE Protection Bollards are hot dip galvanised and coated with highly visible yellow/black powder finish.

Installation is by means of either surface mounted using fixing bolts (available at extra cost) - or alternatively permanently concreted to a depth of 400 mm.

**N.B. The permanently concreted version is recommended for external use.**

Dimensions: Overall surface height 1,200 mm.

### TRAFFIC-LINE Protection Bollards

Surface fixing bolts (4 required per bar and bollard)

Finish	Dimensions Dia/height (mm)	Treatment	Price
Yellow/black, surface fixing	159/4/1,200	Hot dip galvanised and powder coated	€366.00
	80/4/1,200		€323.00
Yellow/black, sub-surface fixing	159/4.5/1,600	Hot dip galvanised and powder coated	€226.00
	80/4/1,600		€202.00
Surface fixing bolts (4 required per bar and bollard)		14/110	€3.50 ea

## TRAFFIC-LINE IMPACT PROTECTION

TRAFFIC-LINE Impact Protection profiles provide both visual warning and safety cushioning. They protect corners, protruding edges and goods in warehouses, production areas, etc.

Prevent injury from impact and protect property. Luminous version remains visible in the event of a power failure.

High-quality protective elements are manufactured in flexible and age-resistant polyurethane foam.

- In UV-resistant signal colours according to DIN 4844: yellow/black or long-lasting luminous lux-white/black according to DIN 67 510.
- Temperature-resistant from -40°C to +90°C, fire protection category B2.
- Free from CFC's and silicones.
- Length of standard elements: 1,000 mm.
- Can be cut to size on site with a sharp knife or fine toothed saw.
- Other available colours: red, black, white or red/white.

For interior and exterior use. Especially suitable for machinery, racking, conveyors, mobile trolleys, corners, columns, girders, roll-out departments, production areas, transfer routes, hospitals, laboratories and clinics, etc.

Edge protection		Length mm	Sectional view (Dimensions in mm)	Colour	Price
	<b>TRAPEZE 40/40</b> Self adhesive fitting.	1,000		Yellow/Black	€29.00
				Red/White	€33.0
	<b>RIGHT-ANGLE 30/30</b> Self adhesive fitting.	1,000		Yellow/Black	€29.00
				White	€29.00
	<b>SEMI-CIRCULAR 40/40</b> Self adhesive fitting.	1,000		Yellow/Black	€30.00
				Red/White	€32.00
				White	€30.00
				Photoluminescent Lux - white/Black	€48.00

### Easy Installation:

Self-adhesive elements can be permanently fixed to smooth, dust and grease-free surfaces on corners and edges.

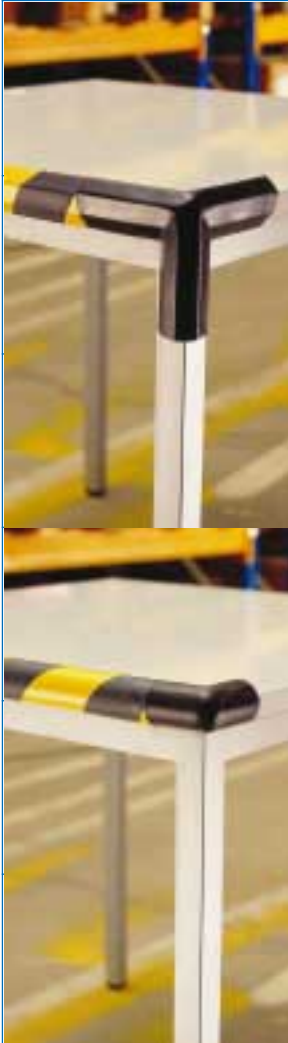

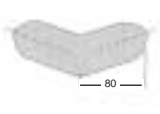

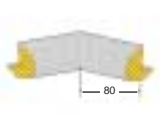

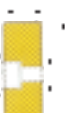

## IMPACT PROTECTION

# CHAIN & SIGN BARRIERS

## GUARDA Chain Posts

			Colour	Height (mm)	Base (mm)	Price
		Plastic, concrete filled (three sided)	red/white	870	300 SL	€20.00
			black/yellow			
		Hard rubber (four sided)	red/white		265 x 265	€23.00
			black/yellow			
		Plastic hollow (round)	red/white		300 dia.	€23.00
			black/yellow			

### GUARDA lightweight chain posts

For easy and rapid cordoning off spaces in warehouses, production areas, shipping departments and administration departments, etc. For indoor and temporary outdoor use. Posts are made from red/white or black/yellow plastic, 40 mm Ø, 870 mm high; with two chain hooks integrated into the top cap. Low centre of gravity, highly stable.

Available with a choice of three base styles.

- Hard rubber base, square, approx. 1.8 kg
- Plastic base, round, that can be filled with sand, water, concrete, etc.
- Plastic base, triangular, filled with concrete, approx. 2.9 kg. Especially suited for outdoor use.

## GUARDA Chain Post Sets

Consisting of 6 chain posts, 10 m chain, 10 connecting links and 10 hooks	Version	Colour	Height (mm)	Base (mm)	Price
	Plastic base, (concrete filled) (three sided)	red/white	870	300 SL	€140.00
		black/yellow			
	Hard rubber (four sided)	red/white		265 x 265	€168.00
		black/yellow			
	Plastic hollow (round)	red/white		300 dia.	€154.00
		black/yellow			

### M-POLY Visible Barrier Chains

Made from Polyethylene, these light-weight chains are best employed for interior use and are extremely economical in price. M-POLY chains and M-POLY Lux chains are available in 6 mm Ø, and are finished in red/white or yellow/black. €36.50 / 25m.

### M-POLY LUX Barrier Chains

Made from polyethylene, these special luminous chains are ideal for interior use. Environmentally friendly and phosphorous free properties enable the chains to 'retain their glow' making them perfect in a period of sudden darkness such as powercuts, etc. Ideal for escape routes and similar areas. €99.00 / 25m.

### Connecting Link

Nylon  
Pack of 10: €12.00

### Post Hook

Nylon  
Pack of 10: €14.00

## Multi-cone barrier system

Featuring an array of 6 flat cones mounted on a metal expanding base, the design enables it to be deployed instantly with the minimum of effort, and when folded takes up no more space than one single conventional cone. Each cone is 450mm high with a reflective white

band for maximum visibility, and mounted on an expanding galvanised steel base for durability and stability. Our Multi-cone barrier is a quick and easy way to warn of hazards, or close off access to an area for any reason. Price: €182.00

## Multi-sign barrier system

Based on our Multi-cone barrier and offering all the same benefits, our Multi-sign features as standard 6 non-reflective panels upon which a message can be portrayed. Wording can be suited to individual requirements, and if needed additional panels can also be incorporated for longer instructions.

### Please ask for further details and pricing.

Typical applications would be direction, temporary closure or re-direction in areas such as car parks, petrol forecourts, public and commercial buildings, factory and refinery sites, etc. Construction is the same as the Multi-cone barrier. (6 Panel Unit) Price: €182.00

## CONTROLLER-PLUS SEMI-AUTOMATIC DROP DOWN POST

**The ultimate in parking post design** the **CONTROLLER-PLUS** offers ease of use combined with modern day styling to complement its surroundings.

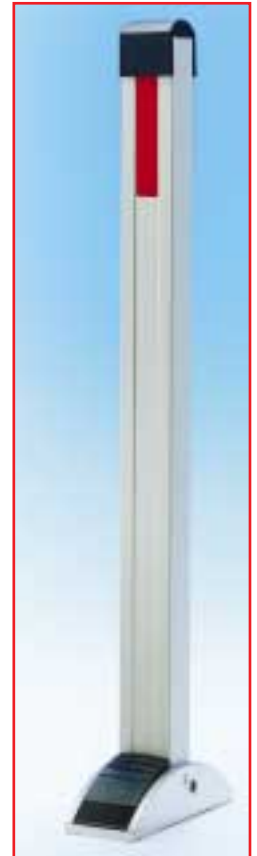

The operation of the **CONTROLLER-PLUS** is simplicity itself - to lower simply unlock, give a gentle push, and the post reclines. To return to the upright position merely press the foot pedal, located in the base, and it will rise automatically.

Manufactured in natural anodised aluminium. The **CONTROLLER-PLUS** is particularly resistant to corrosion. Red reflective strips give warning of the presence of the post.

Installation is by means of a surface mounted cast aluminium bracket plate.

**Dimensions:** overall surface height 950 mm, diameter 70 mm x 50 mm and ground clearance when lowered 65 mm.

€151.00

## TRAFFIC-LINE CROWD BARRIERS

### Heavy Duty Crowd Barriers (Standard Type)

TRAFFIC-LINE Heavy Duty Crowd Barriers are ideal for crowd control at sports events, concerts, processions, work sites, etc., or any other situation calling for long or short-term demarcation or prohibition of access to and from open spaces.

Manufactured in hot dip galvanized steel for long service life. Each barrier is linked by a special clasp, which when in place prevents any unauthorised opening of its inner sections. They can also be combined with TRAFFIC-LINE Lightweight Crowd Barriers for extra versatility.

### Lightweight Crowd Barriers

These lighter weight crowd barriers offer tremendous versatility, as they compliment, and are ideal to combine with TRAFFIC-LINE Heavy Duty Crowd Barriers.

Their special lightweight design means they're easy to handle, and are compact to store.

TRAFFIC-LINE Lightweight Crowd Barriers lock together using a built in clasp and hook method, but which enables long rows to be easily opened on demand – should access be required.

### TRAFFIC-LINE Heavy Duty Crowd Barriers

Overall length 2.58m; Grille length 2.5m; Tubular frame: 40mm Ø; Within frame are 18 uprights of 16mm Ø; Hot dip-galvanized finish. Barriers incorporate unique hook catches.		Dimensions (m)	Price
	Standard Type Wt: 21 Kgs	2.58 x 1.10	€93.00
	LPS Type Wt: 20 Kgs	2.58 x 1.10	€91.00
	Additional Feet for LPS Type		€16.00

### TRAFFIC-LINE Lightweight Crowd Barriers

Overall length 2.39m; Grille length 2.3m; Tubular frame: 25mm Ø; Within frame are 9 uprights of 15mm Ø; Hot dip-galvanized finish.	Dimensions (m)	Price
	2.39 x 1.10	€94.00
	Wt: 9.5 Kgs	

**N.B.** Measurements for crowd barriers are all nominal.

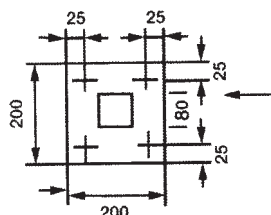

## TRAFFIC-LINE SYSTEM BOOM BARRIERS

TRAFFIC-LINE System Boom Barriers are ideal for securing and controlling entrances and exits to car parks, factories, commercial premises, schools, colleges, public buildings, etc. In fact, any facility that requires to control or restrict access to vehicular and/or pedestrian traffic.

These barriers feature dual gas dampers that not only provide easy operation of the boom, but also dispense entirely with the need for a bulky counterweight. This makes this style of barrier ideal for situations where there is a narrow or restricted access, and where the expense of an electrically operated barrier is not required.

All steelwork is galvanized and painted for maximum protection against corrosion. The boom is manufactured from 80mm dia. aluminium tube painted white with added red reflective strips, and is available in seven lengths from 3m to 6m.

TRAFFIC-LINE System Boom Barriers can be supplied with either a separate support post or with an integrated support post attached to the boom. For gaps wider than 6m, two barriers can be installed, and if the version with the integrated support post is used the requirement for a separate support post in the centre of the gap is removed.

Boom Support Post (Fixed version)

The boom can be secured in the up or down position by means of a securing bolt chained to the pivot post. The bolt is drilled with an 11mm dia. hole to enable the use of a padlock (not supplied). Alternatively locking by means of a triangular key or cylinder lock can be specified.

### (fixed support post)

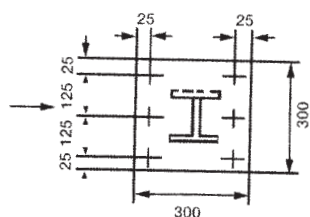

Surface fixing with dual gas dampers	Boom length (mm)	Overall width (mm)	Max. drive through width (mm)	Weight (kg)	Reference	Price €

Barrier Upright (Both versions)

Installation is simply and quickly carried out by means of surface mounted ground plates (fixing bolts available at extra cost - please ask for details). The boom is easily replaced in the event of damage.

### Accessories for TRAFFIC-Line System Boom Barriers

Security clasp with triangular key (On crutch post)		€140.00
Security clasp with cylinder lock & 3 keys (On crutch post)		€140.00
Spring lock with triangular key (For clasp versions only)		€59.00
Replacement clasp with pin	229.10.720	€35.00
Replacement triangular key	130.12.326	€8.00
Fixing bolts		€1.85

# SWING BARRIERS & SPEED/PROTECTION RAMPS

## TRAFFIC-LINE Swing Barriers

Constructed from high-grade steel, galvanised and painted for maximum protection.

**For sub-surface installation:**  
Pivot post 100/1,500 mm, 500 mm of which is underground. Two support posts 76/1, 500 mm.

Barrier boom: 60/30 mm. Standard paint finish is red/white. Red areas can be fitted with red reflective strips subject to a surcharge.

**For surface mounting:**  
Pivot post 100/1,000 mm with base plate. Two support posts 76/1,000 mm with base plates.

Lightweight, horizontal swing barrier with two support posts (secures the barrier when closed or opened) for entrances to industrial areas, pedestrian areas, car parks, offices, public buildings, etc.

Manual operation. TRAFFIC-LINE Barriers are locked by means of a cylinder lock on the respective support post when open or closed. Alternatively, the barrier can be fitted with a locking mechanism with a triangular key operated lock.

### For permanent installation in concrete

Overall Width (mm)	Weight (kg)	Reference	Price
2,500	44	225.10.796	€641.00
3,000	47	225.11.171	€742.00
3,500	50	225.11.365	€878.00

4,500	57	225.12.320	€1264.00

### Accessories

Surface fixing plates (3), surcharge per barrier	€118.00
Red reflective stripes (price per m of total barrier width)	€13.50
Conversion to locking mechanism operational with triangular key (surcharge per barrier)	€50.00

### prices

## TRAFFIC-LINE Speed Reduction and Hose/Cable Protection Ramps

- Reduces road speed immediately.
- Contrasting colours. Models 10RE and 15RE have reflectors to warn of the presence of speed reduction ramps by night as well as by day.
- Simple installation.
- Robust material ensures long service life.
- Low capital investment cost due to using recycled materials.

### Speed Reduction Ramps:

Recycled synthetic materials offer an economical solution for speed control.

#### TRAFFIC-LINE 10RE

Sectional height 70 mm for predetermined traffic speeds of 10 mph approx.

#### TRAFFIC-LINE 15RE

Sectional height 50 mm for predetermined traffic speeds of 15 mph approx.

#### TRAFFIC-LINE 20RE

Sectional height 30 mm for predetermined traffic speeds of 20 mph approx.

Using commercially available adhesives for temporary fitting, or permanently by means of special bolts can secure the ramps to the surface.

### Hose/Cable Protection Ramps

Protect cables and hoses that have to be laid across vehicular access roads etc. Ideal for temporary or semi-permanent applications. Also reduces traffic speeds.

Sturdy black rubber construction with built in reflectors. Can be joined together using 'dog bone' connectors and can be secured with 12/100 mm bolts if required.

Suitable for cables and hoses up to 75 mm dia.

#### TRAFFIC-LINE Hose/Cable Ramps

Fixing bolts 4 per centre section 2 per end section		12/100		€1.85
It is recommended that appropriate warning signs are used with this product.				

# SECURITY MIRRORS

## DETECTIVE-X Acrylic Mirrors

Acrylic observation and control mirror for internal use. Helps prevent accidents and reduces the risk of theft. This mirror has proved invaluable over many years in self-service stores, retail outlets, public buildings, warehouses, manufacturing areas, etc.

Ultra light in weight, it eliminates the risk associated with glass. Perfect for spaces where people circulate. Extremely shockproof, gives outstanding wide-angle vision.

The DETECTIVE-X range is recommended for near observation or where medium to large fields of vision are required. Mounted on flat surfaces using the adjustable fitting kit supplied. Distance from the wall is approximately 20cm for standard fittings and 55cm for extended arm fittings.

Six sizes available from 300 - 800 mm Ø

	Diameter of Mirror (mm)	Max. obs. dist. from mirror (m)	Price
<b>With Normal Wall Mounting</b>	300	2	€66.00
	400	3	€79.00
	500	5	€102.00
	600	7	€108.00
	700	9	€146.00
	800	11	€160.00

	Diameter of Mirror (mm)	Max. obs. dist. from mirror (m)	Price
<b>With Extended Arm Fitting</b>	300	2	€75.00
	400	3	€85.00
	500	5	€107.00
	600	7	€114.00
	700	9	€154.00
	800	11	€165.00

## SPION Acrylic Mirrors

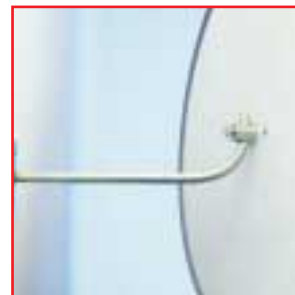

A mirror for both external and internal use manufactured from a special synthetic material.

Incredibly light and extremely shockproof, the outstanding vision and wide-angle characteristics of the SPION make it ideal for close observer distances, or entranceways and exitways.

Six sizes for circular models: from 300 to 800mm Ø includes fitting kit for fixing to flat surfaces - (clamps for post-fixing available) or 400 x 600 mm and 600 x 800 mm (includes bracket for fixing to 60 and 75 mm Ø posts).

	Diameter of Mirror (mm)	Max. obs. dist. from mirror (m)	Price
	300	2	€88.00
	400	3	€102.00
	500	5	€132.00
	600	7	€155.00
	700	9	€194.00
	800	11	€215.00
	400 x 600	5	€232.00
	600 x 800	8	€347.00

## MIRROR-MASTER PLUS

Synthetic glass mirror (With frame and mounting plate)	Mirror Size	Max. obs. dist.	Price
	270/135/75	1	€122.00

MIRROR-MASTER PLUS rear-view mirrors for forklift trucks significantly improve spatial awareness for drivers, as they can observe a wide area without having to turn their heads constantly. Reduces driver fatigue and improves safety.

The mirror is supplied with a

special mounting bracket and is easily fixed in the desired position on the driver's safety cage. (Ensure positioning does not impair forward vision.)

The mirror is mounted in a strong and shockproof frame. Suitable for internal and external use.

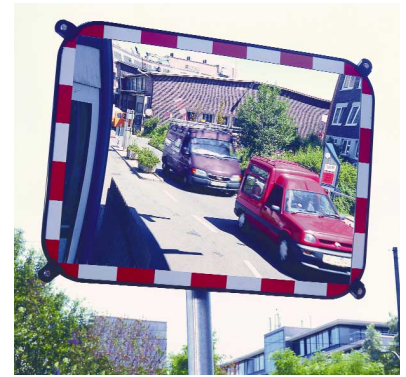

# SECURITY MIRRORS

## S-COMPACT Industrial Glass Mirrors

High-grade traffic and observation mirror suitable for both external and internal use offering a high degree of vision. Robust, frameless construction. The S-COMPACT can be used wherever high demands are placed on the visual quality of the mirrored image, e.g.

traffic regulation and safety, supervision of manufacturing processes, etc. The evenly shaped convex mirror surface is made out of SEKURIT security glass. This ensures the mirror is resistant to shock and provides protection from

injury. The fully reflective red & white eye-catching surround alerts approaching vehicles from a distance of the presence of a traffic-regulating mirror. Standard fixing kit with post bracket (76mm Ø) is supplied. However a 108mm bracket is also available at extra cost if required.

	Mirror Size (mm)	Max obs. dist. from mirror (m)	Price
S-COMPACT 1	400 x 600	5	€258.00
S-COMPACT 2	600 x 800	10	€324.00
S-COMPACT 3	800 x 1000	15	€408.00

## VIEW-MINDER Industrial Duty Mirrors

For interior use and installation in protected outdoor areas. Ideal for production facilities, warehouses, the supervision of manufacturing processes, personnel movements and forklift truck traffic etc. The uniform convex shape provides a brilliant mirrored image.

Lightweight design in shock-resistant acrylic glass for brilliant optical quality. Highly effective. Corrosion-resistant.

Excellent value for money in terms of safety, observation and security. Yellow plastic frame with

lateral black warning stripes, to GBVA8 (DIN 4844). Available in 5 sizes: 3 rectangular models and 2 circular models.

The integrated corrosion-resistant mounting bracket is suitable for post diameters of 60mm or 76mm, and enables the mirror to be adjusted to any desired angle.

Accessories: Wall bracket for installation on vertical surfaces.

Mirror can be mounted in upright or horizontal position.

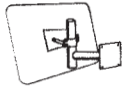

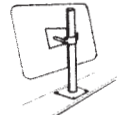

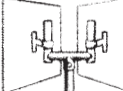

Acrylic glass mirror (Complete with securing brackets)	Mirror size (mm)	Max. obs. dist. from mirror (m)	Price

# FLOOR MARKING

## LOGO•A Spot Marker

Use LOGO•A spot marker for conspicuous and professional marking in seconds.

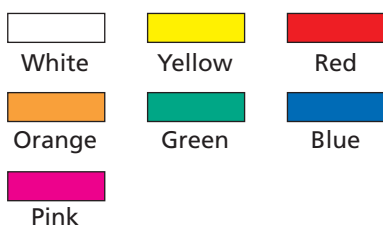

Highlight and indicate location of supply lines, cracks, measuring points, or to record road traffic accidents, incidents, etc.

Remains visible for up to 12 weeks approx.

Environmentally friendly use of CFC-free propellants and non-toxic colourants.

LOGO•A always produces clear and precise markings.

LOGO•A spot markers are suitable for application to solid surfaces such as tarmac, concrete, paving, brick, etc., in road construction, road repairs, building sites, civil works, etc.

Price €11.00 each

## PROline-paint marking systems

### PROliner applicators

No preparation required: The applicators can be used immediately. Rapid marking paint application:- up to 10 metres per minute. (Colours can be changed without having to clean the machine).

### PROliner

the width of the line can be adjusted rapidly to between 50 and 75 mm. Uses a single 750 ml can.

The two rear wheels are easily undone by hand: enabling lines to be created close along walls, machinery, shelves, pallets, etc.

### ROADliner

ROADliner enjoys the same advantages as PROliner but is used to create lines of widths between 100 and 130 mm, using two 750 ml cans of paint.

### HANDliner

Specially designed for use in hand marking, for use with stencils and highlighting objects, obstructions etc. using a single 750 ml can.

### PROline-paint for floor marking

PROline-paint markings are clean, highly opaque, abrasion and chemical resistant and will adhere to virtually all types of surfaces, e.g. concrete, asphalt, tarmac, metal, tiles, etc...

Highly efficient: Depending on the type of surface, one 750 ml can of PROline-paint will produce a 50 mm wide line of 50-90 metres length.

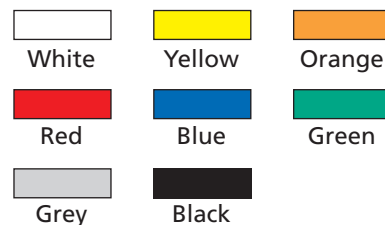

Environmentally friendly: Optimised formulation.

Fast-drying formulation - can be walked on within only a few minutes. Does not require areas to be sealed off.

Easy to use: Shake can - insert into applicator - apply along the line to be marked - finished.

PROline-paint is naturally free from chlorofluorocarbons (CFC's) and only contains environmentally friendly propellant gases.

PROline-paint is available in eight different signal colours: white, yellow, red, blue, green, grey, black and orange.

Price €17.00

### PROline Paint Marking Set

- 1 PROliner Applicator 50 mm to 75 mm lines
  - 2 Cans of PROline Paint
  - 1 PROline Marker Line & chalk
- Price €205.00

Proline Accessories scan... see original	<b>PROline Chalk Marker Line</b> (Provides an exact line) €22.50
	<b>Chalk Refill</b> (For Marker Line) €3.75

## FLOOR MARKING

### PROline Lux long lasting phosphorescent marking paint

750 ml aerosol can, for use with applicator  
400 ml aerosol can, for manual application

€59.00  
€33.00

A newly developed marking spray paint that contains a high percentage of long life phosphorescent pigments. Complies with DIN 67510. This highly pigmented paint produces a hard wearing line – that has a green tinge when viewed in broad daylight – and glows when it turns dark suddenly. This ensures that danger points will be clearly highlighted in the event of lighting failures or a power cut. For use with long lasting phosphorescent safety systems in accordance

with BG regulations A8, and 216.

The thicker the application of PROline Lux, the longer lasting the phosphorescent effect will be. A 750 ml of paint will provide a 50 mm line of approx. 50 m length dependant on surface. For best results the surface should be as light coloured as possible. We recommend applying an undercoat using white PROline-paint (leave for 1 hour) and then apply 1 or 2 coats of PROline Lux.

### PROline Clear Varnish Sealer

750 ml aerosol can, for use with applicator  
400 ml aerosol can, for manual application

€14.50  
€8.00

### PROline Tape

White	Yellow	Orange
Blue	Red	Green
Yellow / Black	Red / White	Green / White

#### Self-adhesive floor marking tape

PROline Tape is an extra robust floor marking tape for internal surfaces. Aisles, traffic ways and other demarcation areas can be marked out precisely, cleanly and economically.

PROline Tape rolls are 33 m long and available in two widths - 50 mm and 75 mm - as well as six colours, providing the flexibility to differentiate between separate areas.

PROline Tape can be removed without leaving residue from most surfaces, and is especially suitable for short and medium term marking requirements.

PROline Tape can also be applied using the TAPEliner applicator; easy to use, ideal when extensive marking out is required - holds two rolls of tape.

The PROline Tape Marker Kit is available for those starting out. When ordering please specify colour(s) and width of tape required.

The kit consists of:

- 1 TAPEliner
- 2 Rolls of PROline Tape
- 1 Trimming knife
- Marker line and chalk.

#### Colour Indication

White	General marking	Blue	Mandatory protection
Yellow	Hazard/caution	Green	Information/direction
Red	Danger/prohibition	Orange	Chemical storage

### PROline Tape Marking System

Tape Marker Kit

Tape 50 mm x 33 m	€7.00
Tape 75 mm x 33 m	€10.50
Tape Marker Kit (with 50 mm Tape)	€276.00
Tape Marker Kit (with 75 mm Tape)	€287.00

## FLOOR MARKERS

### FLOOR GRAPHICS

- **High Visibility**
- **Bold Text**
- **Aisle Identification**

A range of floor marker signs, designed to highlight warnings or special requirements required by industry. Each sign is 430mm in diameter, with an aggressive permanent adhesive applied to the back surface. The graphics of these markers are printed on the underside of a clear PVC film that was selected to withstand the everyday traffic of a fully operational warehouse and have been independently tested with equipment designed by the Transport Research Laboratory for slip resistance.

Price: €25.00

### FLOOR SIGNALS

**A simple and effective solution for marking areas on the warehouse floor.**

A range of inexpensive high visibility yellow signals to highlight walkways, fork truck routes and pallet position on the warehouse floor. The range includes circles for walkways, directional arrows, as route markers, to indicate traffic flow. For marking out block stack pallet areas, the signals include an 'L' shape corner, a 'T' for between pallets and a '+' for centre pallet positions. The markers are made from tough PVC with an aggressive adhesive that has been selected to withstand the everyday traffic of a fully operational warehouse. The markers are suitable for application onto a clean, flat, sealed surface.

Ref	Size (h x w)	Pack	Price
FS/+	300 x 300mm	10	€29.50
FE/T	200 x 300mm	10	€18.50

FS/O	90mm dia	100	€34.00
FS/A	90mm dia	100	€34.00

### FLOOR IDENTIFICATION MARKERS

A range of high visibility individual black on yellow Alpha Numeric Floor Markers designed to highlight Aisle and Bay locations. The signs have a very aggressive permanent adhesive applied to the back surface and will withstand the everyday traffic of a fully operational warehouse. They have been designed to the same high specification as the Graphic Floor Markers. Available in numbers 0 - 9 and letters A - Z..

- **High Visibility**
- **Bold Text**
- **Bay or Aisle Identification**

## AISLE AND BAY IDENTIFICATION

### INSTANT PRODUCT LOCATING

In the factory, warehouse or office with our Aisle and Bay identification markers.

#### AISLE MARKERS

End of Aisle identification in two highly visible colour options. Manufactured from White and Yellow Styrene, these robust markers can be fixed flush with the end frame, or used as flags, with a 90° flange, to identify bays down the aisles. Markers can be pre-drilled in four corners or can be supplied with the option of self adhesive backing or a magnetic fixing.

## TICKET HOLDERS

### MAGNETIC OR SELF ADHESIVE TICKET HOLDERS

Ideal for identifying locations on shelving, carton live and pallet racking.

#### TICKET HOLDER

- Pull forward front allows easy loading and updates of information
- Barcodes can be scanned without removing insert
- Pre cut sizes from stock
- Special sizes on request - up to 3m lengths
- Choice of 4 heights
- For shelving & Pallet Racking
- Magnetic & Self Adhesive options

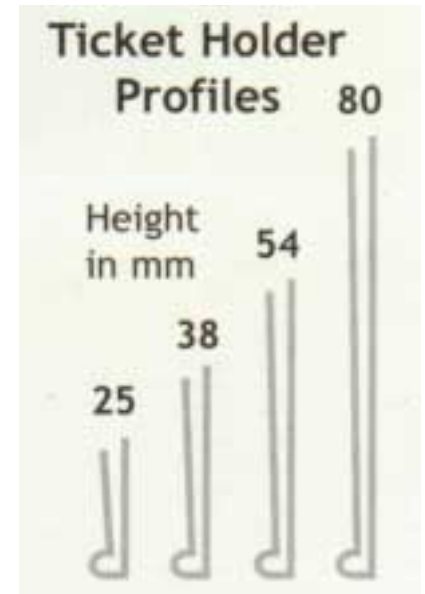

The clear PVC strip is supplied with an aggressive adhesive backing for permanent locations. The Magnetic option offers flexibility to change locations, as well as being suitable for use in cold stores.

## LABEL HOLDERS

### MAGNETIC AND SELF SEAL ADHESIVE LABEL HOLDERS

Magnetic and self adhesive label holders allow fast and easy updates of product information.

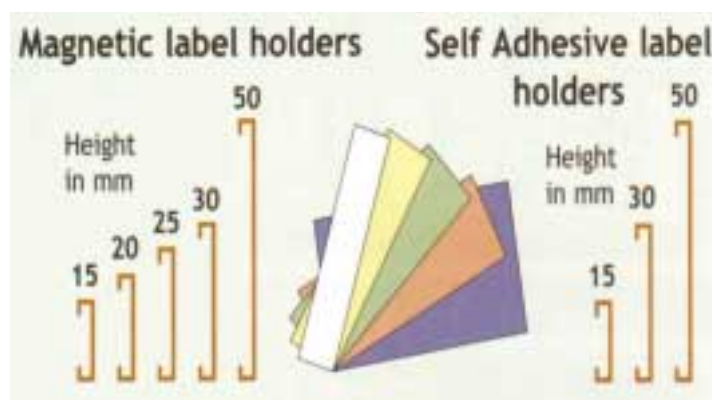

#### MAGNETIC LABEL HOLDER

Stock items are supplied in pre-cut lengths and rolls of 50m but special sizes can quickly be supplied on request. All holders can be cut to size easily and are supplied complete with card inserts and cover strips making them suitable for a range of environments, especially cold store.

All of the range can be supplied with coloured inserts, allowing colour coded areas to be identified. White card is supplied as standard, please specify. Alternatively, preprinted inserts can be supplied for each of the holders incorporating barcodes and location codes. Please contact our Sales Office for a quotation.

### LABEL REMOVER

This aerosol spray will assist in the fast and easy removal of labels, tape and adhesive residue from a wide range of surfaces, including pallet racking and shelf edges. Each can is supplied with an additional high discharge nozzle and an extension tube for getting into difficult areas. The spray can be supplied as a single can or in cases of 12 units.

Ref	Size	Quantity	Price €
LR1	400ml	1	29.00
LR12	400ml	12	255.00

### PALLET MARKER

The pallet marker allows pallets to be instantly identified as soon as they arrive at the warehouse and are particularly suitable for automated systems. Designed to suit Euro Pallets, the markers can be easily adjusted to fit most pallets. Manufactured in tough PVC, the pallet marker is completely impervious to water, oil and grease, allowing it to be used in all warehouse environments as well as outdoors.

Using a simple velcro fixing, the pallet marker can be easily removed and updated as required.

Markers can be used with the Wet Wipe Marker Pen, or combined with preprinted labels including barcodes or product information. With the labels easily applied to the virtually indestructible marker, they can be used again and again.

Pallet Marker 75 x 470mm €68.00 / Pack 50  
Label 70 x 70mm €31.00 / Pack 50

## DOCUMENT POCKETS

Industrial pockets with welded edges are ideal for when documentation needs to be kept clean, or simply for control of fast moving stock.

### • SELF ADHESIVE • MAGNETIC • TIE ON • CLIP ON

The pockets will fit A4, A5 and A7 sized inserts and are available in portrait and landscape format. The adhesive pockets are supplied with an aggressive adhesive tape along the top and bottom edge for a permanent fixing. The magnetic pockets are supplied with a magnetic edge along the top, so that they can be simply lifted and relocated when necessary. The tie on pockets can secure around a maximum diameter of 60mm, whilst clip on pockets are ideal for use on wire bins and cages.

### SELF ADHESIVE RULER

- Permanent Rule
- For Racking, bench top or drawingboard
- A ruler that never gets lost!

A permanent self adhesive ruler, with both metric and imperial graduations. Ideal for use on packer benches or anywhere a measurement is required. The ruler can easily be cut to shorter lengths and once applied will not be removed.

Ref	Size (h x w)	Price €
RUL1	40 x 1500mm	17.00

# MATTING

## COBARIB

- Manufactured from hard-wearing natural rubber
- Slip-resistant 'fluted' surface
- Provides insulation from cold concrete floors
- Can also be used on workbenches to prevent fragile parts from damage

900mm x 10m	€193.00
1200mm x 10m	€219.00

## COBARIB WIDE

- Manufactured from extremely hard wearing rubber
- Broad ribbed surface provides drainage 'channels' in wet environments
- Provides insulation against cold concrete floors
- Suitable for both industrial and commercial environments
- Can be either loose laid or bonded to the floor

900mm x 10m	€193.00
1200mm x 10m	€248.00

## KNEE-SAVER

- Reduces knee pain and lower back stress caused by regular kneeling
- Lightweight only 0.45kg per pad
- Manufactured from closed cell PVC/Nitrile blend
- Resistant to oils and chemicals
- Built-in carrier handle

530mm x 360mm x 25mm high	€21.50
---------------------------	--------

## ORTHOMAT® SAFETY DIAMOND

- Manufactured from 100% closed cell PVC
- Diamond pattern provides additional underfoot grip
- Designed to offer comfortable underfoot cushioning
- Reduces pressure pain caused by prolonged standing to the feet, legs and back
- Encourages healthier blood circulation
- Ideal for assembly areas and packing stations
- Bright yellow borders to increase safety awareness
- Height: 9mm
- Colour: Black / Yellow

600 x 900mm	€57.00
900 x 1500mm	€123.00
900mm x 18.3m Roll	€974.00
1200mm x 18.3m Roll	€1275.00

## ORTHOMAT® DIAMOND ANTI-FATIGUE

- Manufactured from 100% close cell PVC
- Diamond pattern provides additional underfoot grip
- Designed to offer comfortable underfoot cushioning
- Reduces pressure pain caused by prolonged standing to the feet, legs and back
- Encourages healthier blood circulation
- Ideal for assembly areas and packing stations
- Height: 9mm
- Colour: Black

600 x 900mm	€53.00
900 x 1500mm	€108.00
900mm x 18.3m Roll	€887.00
1200mm x 18.3m Roll	€1159.00

# MATTING

## COBA-SWITCH

- Designed for use in front of open switchboards and high voltage equipment
- Provides safety for operatives against electrical shocks
- Fine fluted surface has slip-resistance benefits
- 6mm thick - tested to 11,000 volts and for 450 volt rated working
- 9.5mm thick - tested to 15,000 volts for 650 volt rated working (conforms to BS921/1976)

900mm x 10m x 6mm thick	€661.00
1200mm x 10m x 6mm thick	€868.00
900mm x 10m x 9.5mm thick	€868.00
1200mm x 10m x 9.5mm thick	€1145.00

## VINYL CARPET PROTECTOR

- Transparent vinyl carpet protector
- Economical solution to protecting carpets from wet, dirty feet
- Manufactured with built-in grippers
- Loose lay - easy to install
- Easily cleaned

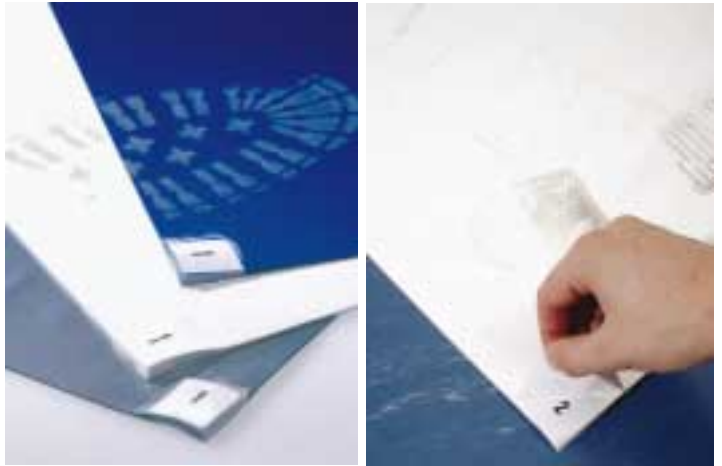

660mm x 3m	€20.00
660mm x 18m	€106.00

## LEISURE MAT

- Manufactured from a resilient vinyl compound
- Hygienic - does not support the growth of bacteria
- Ideal for changing rooms, and around swimming pools
- Designed to reduce slipping in wet environments
- Open 'weave' surface allows water to drain through the mat
- Comfortable to walk on, even barefoot
- Conforms to Slip Resistance Test DIN 51097 Category B
- Safety bevelled edge supplied as standard
- Height: 12mm.

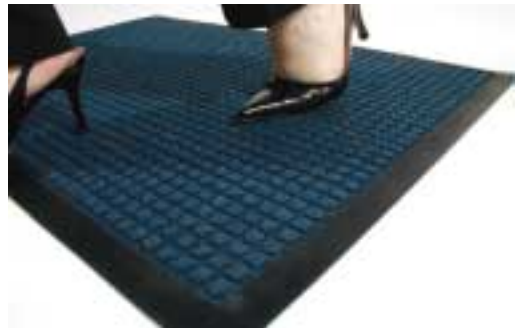

## FIRST-STEP

- An economical solution to contamination control
- Manufactured from an anti-microbial agent
- Protects against the growth of organisms such as bacteria, mould and mildew
- Adhesive coated surface captures dirt and dust particles
- Traps dirt from wheels and pedestrian foot traffic
- Disposable layers - peel off soiled sheets to reveal a clean layer
- Adhesive backed pads stick directly to floor surface
- Approved for direct food contact

Size: 460mm x 1170mm x 1.5mm high
Price: €258.00 (per 4 pads with 30 layers)

## WATERHORSE

- Extremely hard wearing polypropylene loop pile surface
- Rugged nitrile rubber backing for longer life span
- effectively retains moisture from shoes - holds up to 5.4 litres water/m<sup>2</sup>
- Reinforced raised moulded pattern surface scrapes dirt as well as moisture
- Raised edges contain dirt and moisture, protecting floors
- Easy to clean - vacuum or hose
- Height: 7mm

### Sizes

0.6mm x 0.9m	€57.00

# MATTING

## FATIGUE FIGHTER®

- A fused, unique dual layered mat providing superior comfort
- Tough PVC foam top surface - extremely resilient to wear and tear
- Excellent fatigue-relief performance
- Low-density bottom layer gives underfoot cushioning
- Reduces pressure on the back, legs and feet
- Stimulates circulation - insulates feet from cold concrete floors
- Reduces health risks caused by regular prolonged standing
- Product Height: 12.5mm
- Colour: black

600 x 900mm	€79.00
600 x 18.3m Roll	€827.00
900 x 1500mm	€143.00
900 x 3650mm	€351.00
900 x 18.3m Roll	€1230.00
1200 x 18.3m Roll	€1601.00

- Durable anti-fatigue mat with marble-effect top surface
- Extremely comfortable foam cushioned backing relieves fatigue from prolonged standing
- Ideal for industrial, commercial and retail environments
- Supplied with ramped edges
- Looks smart against a carpeted or tiled floor
- Ideal for use in front or behind shop counters
- Height: 14mm
- Colours: black, grey

## COBA-ELITE

- Top quality anti-fatigue mat, 15mm high
- Made from extremely hard wearing polyurethane
- Fire resistant to DIN 4102 (B1)
- Excellent fatigue relief
- Bubbled surface stimulates blood circulation during foot movement
- Safety bevelled edging

Price: 600 x 900mm €127.00 900 x 1200mm €258.00

## MARBLE ANTI-FATIGUE

600 x 900mm	€73.00
900 x 1500mm	€168.00
900 x 3000mm	€321.00

# MATTING

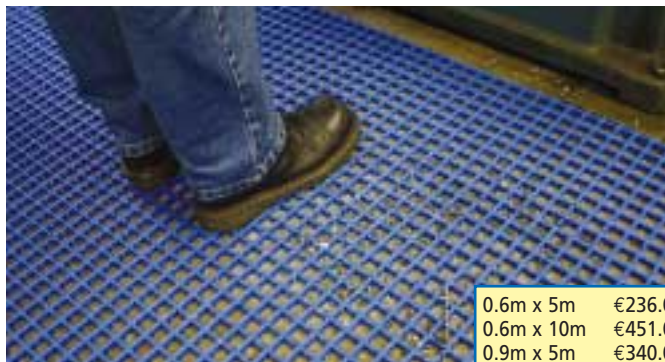

## COBAMAT LIGHT

- Interwoven PVC matting with open holes (30mm x 30mm)
- Effectively traps swarf and industrial debris
- Flexible PVC extrusions resist breaking under pressure
- Comfortable to stand on, and provides warmth against a cold concrete floor
- Reduces leg and backache caused by prolonged standing
- Cross-ribbed in both directions for added grip
- Resistant to mild acids and alkalis
- Fire tested to DIN 54332 (B2) part of DIN 4102
- Fully reversible - easy to clean
- Optional extra: bevelled safety edging (factory fitted)
- Height: 12mm
- Colours: red, blue, green, black

0.6m x 5m	€202.00
0.6m x 10m	€383.00
0.9m x 5m	€282.00
0.9m x 10m	€556.00
1.2m x 5m	€383.00
1.2m x 10m	€730.00

## COBAMAT STANDARD

- Interwoven PVC matting with open holes (22mm x 22mm)
- Excellent resistance to wear and tear
- Provides comfort underfoot
- Cross-ribbed in both directions for a safer footing in wet or oily conditions
- Conforms to Slip Resistance Test DIN 51097 Category B
- Fully reversible - easy to clean
- Resistant to mild acids and alkalis
- Fire tested to DIN 54332 (B2) part of DIN 4102
- Optional extra: bevelled safety edging (factory fitted) and fixing blocks

0.6m x 5m	€236.00
0.6m x 10m	€451.00

## LEISURE LOCKERS

Made from solid grade laminate, these lockers are built to withstand a great deal of day to day wear and tear. Ideal for both dry and general purpose areas or wet and humid conditions, their non-porous and closed surface structure make them very easy to clean and resistant to the growth of bacteria and mould. They are moisture resistant and retain their highly aesthetic visible appearance even after intensive cleaning. The locker carcass is in 6mm thick Trespa laminate with both the doors and the section between compartments in 10mm thick. Corner and shelf profiles are in extruded aluminium with an epoxy powder paint finish whilst the two knuckle door hinges are in satin anodised aluminium with stainless steel pivot pins giving full 180 degree opening. Locking is heavy duty cam lock with other locking options available. Single compartment lockers come with top shelf and single coat hook and two compartment lockers come with single coat hook in each compartment as standard. Locker carcass is in white colour with choice of coloured doors.

## PERSONAL ALARM

### SHRILL ALARM

A compact alarm for personal protection! Ideal for employees.

- This alarm has a lock-on facility and convenient pocket clip.
- It emits an ear-piercing 115db 'shriek' making it a very effective alarm.
- Size: 13mm diameter x 125mm length. €23.50

## KEYLESS ACCESS CONTROL LOCKS

When large numbers of people need to use a door and it is important to restrict unauthorised entry. A Keylex push button access control lock offers a simple and cost effective alternative to keys and cards.

### Standard features on Mini, 800 and 700 models include:

- Over 4,000 different combinations - codes of between 3 and 6 digits are recommended.
- All stainless steel buttons - will not indicate usage.
- All models are inherently fail safe. The lock can always be opened from inside whatever the external status of the lock.
- Templates provided with each unit for installation.
- Adjustable handing.
- The lock is entirely mechanical - no wiring required.

### Changing the code

- Simple and fast code change.
- Use a slotted screwdriver to set code.
- No need to move pins and springs.

Available in two finishes -  
Satin Chrome or Antique Bronze.

### Keylex 800

- Key override option.
- Ideal for aluminium sections.
- Passage function as standard.
- Suitable for door thickness: 30-45mm.

#### KEYLEX MEDIUM DUTY

## SYSTEM CABINETS

## KEY VAULT

A new range of cabinets to control, track and secure keys. This new product has been specifically designed to meet a growing need for increased security in the key control market. The Key Vault provides the tried and tested method of control and tracking of keys available in our system cabinets but with far greater security. The body is constructed from 2.5mm steel (max) with a 3mm door. They offer double security and triple the strength of the system range. The Key Vault is best suited to commercial usage where the loss or misuse of a key can seriously damage the owners business.

2.5mm Fabricated Steel Body

## PRESENTATION SYSTEMS

DB147

DB148

DB149

### LEGAMASTER LASER POINTERS

Create a professional impression during your presentations.

- All styles have a 100m range and are supplied with a case and batteries.
- DB147 and DB149 project a 4mm red dot.
- DB148 projects a user selectable red arrow or dot.
- DB149 includes an integral ball point pen.
- CE tested to laser class II.
- Certified to EN60 825-1.

Code	Description	Price
DB147	Pocket Size Laser Pointer	€37.50
DB148	Pen Style Laser Pointer - Selectable Arrow or Dot	€52.50
DB149	Pen Style Laser Pointer with Integral Ballpoint Pen	€56.00

### MOBILE DOUBLE SIDED DRY-WIPE BOARDS

Easy to move from one location to another.

- Move your notices, plans or presentations to different rooms and departments with ease.
- Dry-wipe surface rotates to different angles and can be locked for easier writing.
- Available in magnetic and non-magnetic.

Code	Description	Size	Price
DB154	Magnetic mobile board	1200x900mm	€371.00
DB155	Magnetic mobile board	1500x1200mm	€461.00
DB156	Magnetic mobile board	1800x1200mm	€491.00
DB151	Non-Magnetic mobile board	1200x900mm	€321.00
DB152	Non-Magnetic mobile board	1500x1200mm	€396.00
DB153	Non-Magnetic mobile board	1800x1200mm	€436.00

### MAGIC-CHART PRESENTATION FILM

Creative, space saving solution for presentations, meetings and brainstorming sessions.

- Polypropylene film will electrostatically adhere to any smooth surface such as windows, walls and doors.
- Handy, lightweight pack can be suspended from any standard flipchart.
- Roll is perforated so it can be divided into separate sheets – each sheet measures 600 x 800mm.
- Grey grid lines (25 x 25mm) help you keep drawings and text neat and aligned.
- Bleed proof for use with Permanent Marker Pens.
- Notes, visuals and presentation cards can also be stuck to the film for more effective presentations.
- Can be rolled up or folded away for later use.
- Price per roll of 25 perforated sheets.

Code	Description	Price
DB150	Magic-Chart	€36.50
WPT02	Permanent Label Marker Pen	€8.50

### DRY-WIPE BOARDS

Choose from a range of colourful frames!

- Double-sided Dry Wipe Boards have a high Gloss white surface for use with dry-marker pens.
- A faint grid-guide of 25mm squares on reverse of white board assists alignment when writing and charting.
- Available in a choice of anodised aluminium or coloured frame.

To order a coloured frame replace the asterisk (\*) in the product code with A = Red, B = Yellow, C = Blue, D = Green.

Code	Description	Size (mm)	Price
DB000	Aluminium Frame	900x600	€94.00
DB001	Aluminium Frame	1200x900	€129.00
DB002/*	Coloured Frame	900x600	€82.00
DB003/*	Coloured Frame	1200x900	€111.00

### DRY-WIPE MARKERS

Pack of four different coloured pens for use with dry-wipe boards.

Code	Description	Price/Pack
DB076	4 Marker Pens	€7.50

## INTERACTIVE DRY WIPE BOARDS

### Mimio Xi Interactive Whiteboard System

*Turn your whiteboard into an interactive white board!*

Revolutionise your whiteboard with a uniquely portable and affordable solution that will digitally and interactively enhance, supplement, and re-inforce your presentations.

#### What is Mimio Xi?

Mimio Xi is a lightweight, compact, and low cost device that turns any whiteboard into an interactive board. Whether used to digitally capture notes or drawings that can be saved and/or integrated into other materials, or with a multimedia projector to turn the whiteboard into an interactive touch screen.

#### Turn any whiteboard into an interactive whiteboard.

When used with a multimedia projector, you can use one of the mimio stylus pens like a cordless mouse to control (click right, click left, drag and drop) computer applications and documents directly from the whiteboard.

- Control PowerPoint slides, Word documents, Excel spreadsheets.
- Browse educational websites on the Internet.
- Navigate interactive instructional CDs.
- Perfect for front of class and whole class instruction in schools as well as office presentations.
- Allows more interactive and engaged presentations!

*With Expo™ dry-erase markers inserted into the mimio stylus pens, everything that you write or draw on the whiteboard is digitally recorded - in colour and real time - so that it can be saved and:*

- Printed as required.
- Emailed to absent personnel.
- Posted on the web accessible by all.
- Copied and pasted and incorporated into other applications.

#### Ultra-Portability... No computer required!

*With mimio Xi's built-in memory, notes can be recorded and stored without a computer. Notes can be downloaded by connecting mimio Xi to your computer via the USB cable. What's included?*

- Minio Xi capture bar with linkUSB interface module.
- Minio Xi stylus pens.
- Mimio Xi Eraser with holder.
- Four (4) Expo dry-erase markers (Red, Green, Blue, Black).
- USB cable - 16' (5m).
- MimioMouse insert.
- Batteries for bar, eraser and pens.
- Snap-in mounting brackets.
- CD with software, QuickStart Install and User Guide.

*Warranty:*

2 years on all hardware. Extended 3 years with product registration.

#### System Requirements:

##### Windows:

Windows compatible PC with Pentium II, 400 MHz+ processor, 32MB RAM minimum (64MB RAM recommended), 15MB free disk space minimum, CD ROM Drive, available USB port.

##### Mac:

G3, G4, iMac, PowerBook G4 or iBook, PowerBook G3 128MB memory (physical RAM), 15MB free disk space minimum, CD ROM Drive, available USB port, available Video Out port for mimioMouse.

Code	Description	Price
DB157	Mimio Xi Technology	€2346.00

## MULTILINGUAL SAFETY TRAINING DVD

With 20 subtitled languages to choose from, including English, the DVDs are ideal for a company that have workers who do not have English as their first language.

#### Languages Included:

**Albanian, Bengali, Chinese, Czech, English, French, German, Gujarati, Hindi, Italian, Kurdish, Polish, Portuguese, Punjabi, Russian, Spanish, Tamil, Turkish, Urdu, Welsh.**

#### Introduction to Health & Safety:

Ideal for providing your employees with an understanding of "What is Health & Safety?" and what they need to be aware of in the workplace.

The DVD covers a range of subject areas in 20 languages, including:

- Fire Safety
- Slips, Trips and Falls
- PPE
- Manual Handling
- Electrical Safety
- COSHH

#### Other titles available:

Food Hygiene (20 mins.), Fire Safety (12 mins.), Manual Handling (12 mins.)

### Ecologically acceptable - and ready for the future

Two collecting bins are a standard feature of the intimus CD / MultiMedia shredders. The shredded CDs / DVDs are neatly segregated from the other materials and collected separately. This separation ensures straightforward disposal and optimally prepares the materials for appropriate recycling.

# LETTER FOLDERS

## DESKTOP FOLDERS

### 3-Sheet Desktop Folder 6200

For use with A4 paper, 60 - 90 g/m<sup>2</sup>

- Hand-fed machine folds 1 – 3 sheets in seconds
- Creates a letter fold to fit a standard size business envelope
- Folds up to 30 letters a minute, 1800 sheets per hour
- Accepts stapled sets
- Automatically folds paper when inserted
- Easy to remove unlikely paper jams
- Non-skid feet

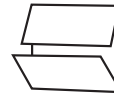

### 4-Sheet Desktop Folder 6400

For use with A4 paper, 60 - 90 g/m<sup>2</sup>

- Hand-fed machine folds 1 – 4 sheets in seconds
- Creates a letter fold to fit a standard size business envelope
- Folds up to 36 letters a minute, 2200 sheets per hour
- Accepts stapled sets
- Automatically folds paper when inserted
- Easy to remove unlikely paper jams
- Non-skid feet

## MOBILE SAFETY STEPS

A range of safety steps for warehouse or factory use. 2,3 and 4 step units are fully welded but 5-15 tread are fold down for ease of transportation and access into awkward locations.

2-6 tread are automatically braked using spring loaded castors.

7-15 tread are braked by use of the integral Ascent Safety Bar. When this safety bar is pushed back, the wheels are automatically raised - stabilising the steps and allowing access.

Steps supplied with double handrail and punched pattern steel treads. Standard tread width is 550mm but other widths up to 1200mm can be supplied.

# STEPS AND LADDERS

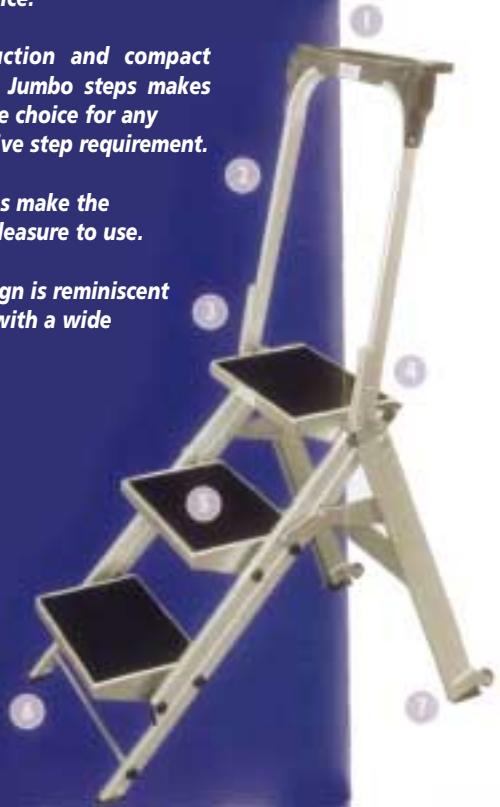

## LITTLE JUMBO SAFETY STEPS

Regardless of the Little Jumbo model you choose, you can be assured of long lasting and dependable service.

The robust construction and compact design of the Little Jumbo steps makes them the number one choice for any two, three, four or five step requirement.

Safe extra large steps make the Little Jumbo a real pleasure to use.

The unique step design is reminiscent of a fixed stairway, with a wide and secure feeling.

### 1 Tool Tray

Designed to hold anything from screwdrivers to paint cans.

### 2 Lightweight Aluminium

Rugged, corrosion-resistant and built to last

### 3 Safety Bar

Available on all models -provides added security

### 4 Locking System

Smooth action and sturdy locking system for safe & easy set-up

### 5 Non-Slip Treads

Wide non-slip treads provide maximum stability - available in black rubber

### 6 Non-Slip Feet

Safety step legs have non-slip feet for solid dependability

### 7 Tip 'n' Pull Wheels

Designed for ease of mobility

(Optional Extra)

## Telescopic Xtend & Climb...

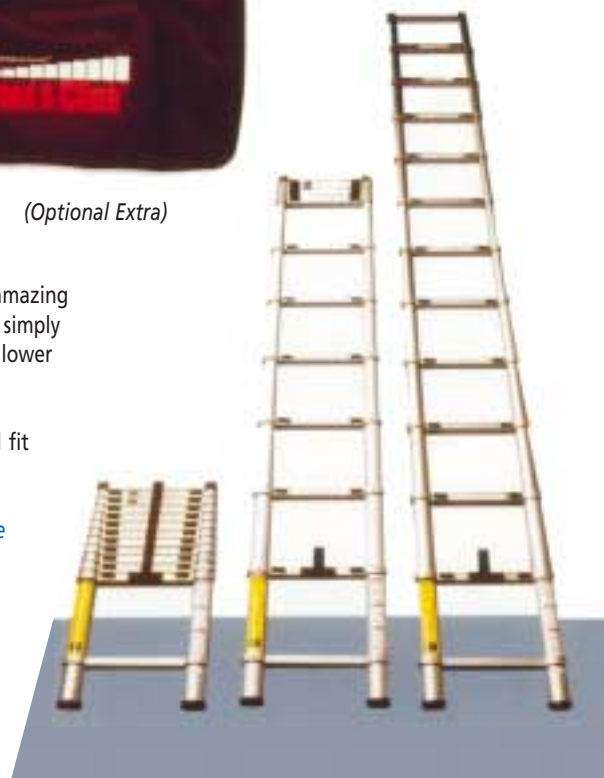

The new Xtend & Climb telescopic ladder stores at a mere 0.76m and telescopes up to an amazing 3.8m. The compact design makes it easy to store, convenient to carry and simple to use – simply lift and lock to the desired height, complete your task and use the release catches to safely lower each section, without trapping any digits ... easy!

Xtend & Climb is the perfect portable ladder and weighs only 11kg, which means that it will fit into any car boot or cupboard.

*Because the Xtend & Climb opens and locks rung-by-rung, you only need to open it to the length required, giving much greater flexibility and manoeuvrability in confined spaces.*

Certified to EN131 the Xtend & Climb is tremendously robust, with a tough anodised aluminium finish that is clean to the touch – an ideal piece of kit for working inside and out, at home, in the office or on site.

Xtend & Climb Ladder	€265.00
Carrier Bag	€65.00

# STEPS AND LADDERS

## Little Giant Ladder System - EN131

- Ultimate multi-purpose ladder system.
- Up to 34 different configurations - A frame step, extension ladder, stairwell ladder, lean-to step and two trestles.
- Constructed from heavy-wall aluminium with strong versatile hinge.
- Splayed legs with super-size non-slip feet and no need for spreader bars.
- Compacts down for easy transport and storage.

### Surpasses OSHA Standards

Besides its strength, there are several other reasons why the Little Giant is the safest ladder around. The flare at the end of each leg provides tremendous stability, which is crucial. Also the skid-resistant feet help prevent slippage, providing they are kept in good repair.

Furthermore, the Little Giant ladder system meets OSHA's highest rating - Type 1A - extra heavy-duty, with a 150kg capacity. In many areas it exceeds OSHA specifications by 400% to 500%. This is equivalent to European standard EN131. The Little Giant is used by military units around the world.

Model No.	Model Type	Extension Height (m)	Step Height (m)	Trestle Height (m)	Storage Height (m)	Weight kg	Price
10101	3	2.13 - 3.35	0.91 - 1.52	0.91	1.09	12	€246.00
10102	4	2.74 - 4.57	1.22 - 2.13	1.22	1.40	16	€261.00
10103	5	3.35 - 5.79	1.52 - 2.74	1.52	1.70	19	€289.00
10104	6	3.96 - 7.01	1.83 - 3.35	1.83	2.01	25	€344.00

### The Leg Leveller

What happens when the Little Giant has to be used in a "lean-to" position or on an uneven surface?

The leg leveller is the safe and straightforward solution. It attached to the stile of the ladder and provides all the strength and security of the ladder itself.  
€000.00

## Little Giant Replaces Eight Pieces of Equipment

The Little Giant is the ultimate in versatility. The Model 5 version replaces the following equipment:

- 1.52m A-frame step
- 1.82m A-frame step
- 2.13m A-frame step
- 2.44m A-frame step
- 2.74m A-frame step
- 6.70m extension ladder
- Two scaffolding trestles
- Stairwell ladder

And unbelievably it stores in just 1.70m of space and weighs a mere 19kg.

As if that wasn't enough, the Little Giant's adjustable nature allows it to be used safely on stairs, ramps, curbs, docks and other uneven surfaces. Granted, the Little Giant won't replace all ladders, but independent tests conclude it will replace approximately 60-70% of all portable ladders currently being manufactured, resulting in considerable savings.

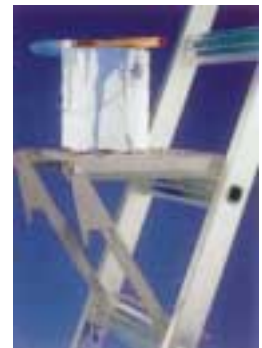

### The Wingspan

When working around windows, gutters and other overhanging obstructions, the extra wide span gives even more stability to your ladder system.

Price: €82.00

### The Movable Work Platform

For even more versatility, the movable work platform fits on any rung and will support 150kg. You can use it to hold everything from people to paint.

Price: €58.00

### KLIK FOLD UNIT

- Ideal for one man to use, unfold the unit, fit the board and start work!
- Provides a working platform 0.7m wide and 2m long.
- Six optional platform levels between 0.4m and 1.9m.
- Fitted with lockable castors.
- Captive folding bracing system means minimum components for compact transport and storage.
- Extension and Guardrail packs available.

Price: €902.00

## STAINLESS STEEL MOBILE STEPS

### TILT AND PULL STEPS

- Tread Size: 400 x 160mm
- Platform Size: 400 x 200mm

Constructed from tubular food grade 304 Stainless Steel these steps are ideal for use in canteens, kitchens, hospitals, etc. Grey non-marking rubber wheels at the front enable the steps to be tilted forwards and easily wheeled into position.

Treads are covered in a "Safety Walk resilient Anti-Slip surface". Due to the design of the units they require virtually no maintenance.

No of Steps	Top Step Height mm	Overall H x W x D mm	Weight kg	Model	Price
2	500	1055 x 455 x 620	10	SS2002	€508.00

## STEEL STOR SECURITY CABINETS

### A range of cabinets designed and tested to give maximum protection

The Steel Stor range of cabinets offers the user secure storage for large bulky valuable items.

- Bags of loose change for the retailer
- Cartons of cigarettes
- Power tools
- Mobile phones

Standard cabinets are available in five sizes with multiple locking options. In addition to these units there are also three deposit models, these allow the periodic removal of cash/valuables from general access without staff having to be given keys or combinations to the cabinet. Construction takes the form of an all steel 4mm thick Body and 3 way locking bolt work. The hinged side of the door is protected by a continuous dog bar and hardened plates protect all other potential attack areas. Locking is with a VDS approved class 1 safe lock as standard. The severe FG Burglary Test completed independently ensures the cabinet will withstand attack and forced entry.

The Steel Stor is supplied with shelves and door boxes to allow maximum use of the space available whilst keeping the contents both organised and easily accessible.

- Independently tested and approved to withstand a burglary attempt (FG Test)
- 4mm body finished in light grey (RAL 9002)
- Shelves and door boxes as standard
- £3000 cash rating (10 x Valuables)

Model	Height mm	Width mm	Depth mm	Weight kg	Shelf	Volume litres	Price
SFSC060	600	540	400	67	1	105	€492.00
SFSC100	1000	600	450	154	2	260	€802.00

SFSC160D	1600	600	700	235	4	652	€1312.00
SFSC180D	1800	850	700	302	4	772	€1460.00

## LOCKABLE CABINETS

The SFSC49 offers a side deposit drawer with an aperture large enough to take a wallet or small envelope.

- Cylinder lock on drawer
- Safe lock to secure main door
- Spoke wheel bolt throw
- Robust construction
- 175mm x 105mm x 20mm drawer aperture

The SFSC60WDD is equipped with a lockable front deposit drawer that allows the contents to drop into the cabinet once the drawer is fully closed, thus removing the need to open to cabinet.

- 240mm x 160mm x 75mm drawer aperture
- Light grey finish (RAL 9002)
- Safe lock on drawer and door
- 4mm body and door
- 3 way bolt work

The SFSCDR48 offers a rotary deposit drum that is best suited to larger items.

- 90mm x 250mm aperture
- Spring returned so drum always closed
- Secure safe lock with 2 keys
- 4mm steel plate body and drum
- Dog bar to protect hinged side of door
- 180 degree door access

### STEEL STOR WITH DEPOSIT

Model	Height mm	Width mm	Depth mm	Weight kg	Door Boxes	Shelf	Price

SFSCDR48	480	320	320	50	0	0	€437.00

FG approval against burglary and attack

### FIRE RESISTANT FILING CABINETS

1. The seamless construction is contemporary and stylish.
2. The insulation, "insulite", is considered to be the most effective available, and provides maximum protection with less weight and thinner walls.
3. Painted in a dust-free environment, the durable finish is available in a variety of colours with RAL 9002 (light grey) being standard finish.
4. Recessed handles have label holders that can be easily seen.
5. The drawers are secured by a standard plunger key lock but other options are available on request.
6. The drawers roll smoothly and freely on a rugged suspension system even when fully loaded.
7. Every file drawer is completely insulated, making each one independently fire resistant. If a drawer is accidentally left open and fire strikes, this feature will halt the spread of fire throughout the entire file.
8. An inner steel drawer jacket prevents entry into a locked drawer from an unlocked compartment.
9. The drawers are slotted for movable hanging frames to provide convenient flexibility of using either legal, A4, folio or letter size hanging file folders.

Model (RAL 9002)	External (mm)	Internal (mm)	Weight (approx kg)	Price
2 drawer	700 x 498 x 635	260 x 384 x 508	130	€1349.00
4 drawer	1360 x 498 x 635	260 x 384 x 508	240	€1947.00

## FIRE CABINETS

# FIRE STOR CABINETS

...an affordable solution for secure storage of valuables and paper documents.

The "Fire Stor" range of light weight security and fire resistant cabinets provide an affordable solution for the storage and protection of valuables and paper documents. Finished in RAL 7035 grey to complement any office environment. The cabinets are double walled, the spaces between the walls and doors are filled with a fire resistant material in accordance with the German standard DIN4102. This provides fire resistance for approximately 30 mins up to temperatures of 750°C.

### KEY-LOCK

Standard locking is with a CEN/VDS approved double bitted safe keylock and 2 keys.

### ELECTRONIC DIGITAL LOCK

The option of a programmable, 2 user digital lock with master code. Battery life 3 years under normal usage.

### HEAVY DUTY ROUND BOLTS

The doors are secured by 5 solid steel bolts and a continuously formed dog bar to protect the hinges in the event of attack.

### OPTIONAL EQUIPMENT

Lockable compartment 300mm high. Pull out frames. Extra shelves.

# FIRE VAULTS

- Resistant to Fire and Burglary Attack

# HAZARDOUS SUBSTANCE CABINETS

## COSHH & ACID CABINETS

### Control of Substances Hazardous to health.

Regulations apply to virtually all workplaces. There are mandatory requirements for employers to carry out Coshh Risk Assessments. Substances hazardous to health are those products that are capable of causing adverse effects or disease arising out of exposure from work activities. It's the employers responsibility to gather information on these products and either eradicate the risk or at least control it. Any substance labelled as Toxic, Irritant, Corrosive or Harmful falls within identifiable categories defined by Coshh.

### Coshh Cabinet Labelled 'Irritant' and 'Harmful'

H x W x D	No. of Shelves	Ltr	Price
1830 x 915 x 457	3	50	€467.00
915 x 915 x 457	1	30	€328.00

Stand 533 x 915 x 457mm	€97.00
Stand 533 x 457 x 457mm	€85.00
Drop-on sloping top 915 457mm	€69.00
Extra Shelf 915mm wide	€23.00
Extra Shelf 457mm wide	€20.00

### Acid Cabinet Labelled 'Corrosive'

H x W x D	No. of Shelves	Ltr	Price
1830 x 915 x 457	3	50	€497.00
915 x 915 x 457	1	30	€349.00
915 x 457 x 457	1	15	€259.00
*710 x 457 x 305	1	10	€233.00

\*Single Point Locking

Acid cabinets are Polyester Powder Coated

#### Sloping Top Drop-on Unit

Prevents storage on top of cabinets. Retro fit unit and requires no fixings. Increases height of cabinet by 150mm.

#### Removable Sump

Each unit is supplied with an easily removable sump to facilitate the removal of any spillages within the sump in a safe manner.

#### Cabinet Base Sump

Each unit benefits from 75mm all welded leak proof sump to insure containment of leaks from stored containers.

#### Door handle

Quality chrome plated robust handle supplied complete with two double entry keys. Additional spare keys and master keys available on request.

#### 3 Point locking

For extra security doors incorporate three point locking, except where indicated.

#### Reinforced Doors

Doors manufactured with a welded door stiffener for extra rigidity and strength.

#### Stands

Manufactured using welded 38mm tubular steel complete with adjustable feet.

#### Leak proof Shelves

Spillages that occur within the inverted perforated shelf will be directed into the lower removable sump and not within the general confines of the cabinet. Shelves adjustable at 25mm increments and have a 90Kg UDL (Uniformly Distributed Load). Extra shelves available on request.

#### Powder Coating

These units are offered with a tough and durable epoxy polyester paint finish. Each unit is individually pre-treated prior to entering a purpose built gas powered curing oven for 10 minutes at 180° Centigrade.

#### Construction

Manufactured using high quality mild steel in a range of 0.9mm (20swg) - 1.5mm (16swg) thickness to give a robust unit. Each unit is assembled from pre-formed steel and mig welded together for extra rigidity. Welding seams will also assist in maintaining the structural integrity under extreme conditions

## CHEMICAL STORAGE CABINETS IN POLYPROPYLENE

In extreme environments of corrosive fumes or where metal enclosures are not suitable because of magnetic or spark risk danger, (refineries, oil rigs etc.), we produce an all plastic enclosure range.

The most important part of this range is that there are **NO INTERNAL METAL PARTS USED!**

Only the external lock is plated metal. We have developed catches, hinges, shelves and doors completely made in **Polypropylene**.

This furniture will withstand the most corrosive and wet working environments.

Buy it once and forget it forever.

FC PP range

**RESISTS HYDROFLUORIC, HYDROCHLORIC, SULPHURIC AND ALL OTHER MINERAL ACIDS PLUS ALL ALKALINE LIQUIDS**

## ENVIROBIN - INTERIOR RECYCLING SYSTEM

The stylish Envirobin range of 100 litre interior bins is extremely versatile. Envirobin is available with a selection of lid options, or with colour-coded lid inserts to enable office managers to create a single waste and recycling collection point. All versions of the bin feature a concealed internal retaining lip which grips the top edge of a standard 18-inch refuse sack.

1. Recycling and waste collection points can be easily and harmoniously created.
2. Waste collection units in standard ivory.
3. Confidential paper unit with key lock.
4. Sack retaining feature for secure and discreet fitting of standard 18-inch refuse sack on all units including open top.

### Envirobin Recycling Bins

accepts std 18" plastic sack c/w std graphics €119.0  
Please specify open, swing or hooded top,  
or coloured top for plastic bottles, paper or cans.

### Envirobin Confidential Bins

lockable c/w std confidential graphics €208.00

### \*Split Envirobin (with 2x50 Ltr compartments)

c/w std graphics €237.00

### Envirocup Bin

accepts plastic cups  
& liquid waste container €237.00

### Envirobin Dims:

807mm H x 448mm W x 448mm D

**Standard Colour:** Ivory

Envirocup's lid features six apertures for used vending cups and a separate central aperture for liquid waste.

Central reservoir is removed for easy emptying of waste liquid.

\*2 apertures in lid. Please specify if for general waste, bottles, cans or paper.

## NOVELTY LITTER BINS

A unique novelty product which encourages early appreciation of litter awareness. Ideal for schools, hospitals, swimming pools, leisure complexes, tourist and picnic areas. Two distinct models are available, Henri in blue and Henrietta in pink. Supplied complete with 65 litre capacity zinc coated steel liner. Height: 1100mm x Diameter: 700mm.

### Henrietta & Henry Hippo

Price: €576.00

**Key features:** Unique hippo-shaped litter bin with hidden 65 litre zinc-coated steel liner which lifts out for emptying after unlocking and twisting off the hippo's head. Tamper-proof security locks.

**Popular uses:** Schools, hospitals, swimming pools, leisure complexes, nurseries, tourist, picnic and play areas.

**Optional Features:** Other colours available on request.

**Fixing Mechanism:** Inclusive anchor plate. Materials. Self-coloured UV stabilised moulded polyethylene (PE).

**Colour-range:** Henri in blue and Henrietta in pink.

## SALT & GRIT BINS

Specialist bulk storage 7 and 14 cu. ft. moulded plastic containers designed to withstand climatic extremes and heavy use. Steel reinforced knuckle hinge gives 270° drop-over lid action, providing full width access. Lid is close-fitting, secure and water resistant. Recesses have been built in for mechanical handling and a 70% nesting profile minimises storage space requirements. Can be moved fully laden.

**Popular Uses:** Storage of salt and grit used in clearing ice and snow from highways and pavements.

**Optional Features:** Choice of 7 and 14 cu. ft. versions. Optional hasp and staple.

**Fixing Mechanism:** Free-standing.

**Materials:** Self-coloured UV stabilised moulded polyethylene (PE).

**Colour Range:** Yellow. Other colours made to order.

### 7 cu. ft. model

Capacity: 200 litres.

Dims: 1200mm wide x 540mm deep x 625mm high at back, 450mm high at front.

Price: €235.00

### 14 cu. ft model

Capacity: 400 litres.

Dims: 1200mm wide x 775mm deep x 805mm high at back, 540mm high at front.

Price: €358.00

Extra for Hasp and Staple: €20.00

# WASTE MANAGEMENT BALER PRESSES

**Environmentally Friendly, Easy to Use,  
Reduces Paper, Plastic & Other Waste Volume by up to 90%**

- Vertical and free standing balers requiring minimum floor space
- Simple and safe to use
- Bale is tied with the doors closed for complete safety
- Volume reduction of up to 90% providing a clean, clutter-free working environment
- Automatic shut down of the machine if door is opened during operation
- All balers conform to the latest health & safety regulations

## Compact Hydraulic Baler Press Range

Take control of your daily output of waste paper, cardboard and plastic

Convert your cardboard, paper and packaging material into neat, dense space-saving bales

The resulting compacted material will be smaller, easier to handle and less costly to transport than loose material

Save on expensive storage space, transport and handling costs with a non-intrusive baler

- One year equipment warranty
- CE Approved
- Low noise levels
- Low running costs
- Easy to clean
- Competitively priced

## COMPACT 55

## TECHNICAL SPECIFICATIONS

### Baler Dimensions

<b>Height</b>	1.93m
<b>Width</b>	0.66m
<b>Depth</b>	0.57m
<b>Weight</b>	160 Kgs

### Loading Aperture Sizes

<b>Height</b>	0.41m
<b>Width</b>	0.55m

### Bale Dimensions

<b>Power Supply</b>	220-230v single phase	<b>Height</b>	0.80m
<b>Motor</b>	1.5 Kw Motor	<b>Width</b>	0.55m
<b>Pressing Force</b>	Up to 2 Tonnes	<b>Depth</b>	0.45m
		<b>Weight</b>	Up to 55 Kgs (depending on type of material used)

<b>Noise Level</b>	72 Decibels	<b>Cycle Time</b>	25 Seconds
--------------------	-------------	-------------------	------------

## Features

- Bale weight output up to 55 Kgs
- Smallest baler in the range; perfect for the production of small compact bales
- Powered by a standard 3 pin 13 amp plug
- Compact design makes this machine ideal for locations where space is at a premium e.g. garage forecourts, retail outlets, offices, pubs, restaurants, fast food outlets
- Lifting Trolley included

**PRICE: €3120.00**

## COMPACT 75

### TECHNICAL SPECIFICATIONS

#### Baler Dimensions

Height	2.35m
Width	0.83m
Depth	0.585m
Weight	395 Kgs

Power Supply	220-230v single phase
--------------	--------------------------

Motor	1.5 Kw Motor
-------	--------------

Pressing Force	Up to 3.5 Tonnes
----------------	------------------

Noise Level	72 Decibels
-------------	-------------

#### Loading Aperture Sizes

Height	0.64m
Width	0.7m

#### Bale Dimensions

Height	1m
Width	0.7m
Depth	0.5m
Weight	Up to 75 Kgs (depending on type of material used)

Cycle Time	35 Seconds
------------	------------

### Features

- Bale weight output up to 75 Kgs
- Powered by a standard 3 pin 13 amp plug
- Extremely quiet machine when operational (72 decibels)
- Perfect for positioning in a limited-space environment where material volumes are small-medium
- Lifting trolley included

PRICE: €3672.00

## COMPACT 150

### TECHNICAL SPECIFICATIONS

#### Baler Dimensions

Height	2.8 m
Width	1.5 m
Depth	0.98 m
Weight	780 Kgs
Transportation Height	2.25 m
Power supply	Single Phase 220-240 Volt
Motor	2.2 Kw Motor, 16amp
Pressing force	Up to 8 Tonnes
Noise level	74 Decibels

PRICE: €6662.00

#### Loading Aperture Sizes

Height	0.65 m
Width	0.9 m

#### Bale Dimensions

Height	1.0 m
Width	0.95 m
Depth	0.8 m
Weight	150 Kgs (depending on type of material used)
Cycle Time	40 Seconds

### BALE STRAPPING

9mm x 250m	€19.50	Box of 10 Rolls
12mm x 250m	€19.50	Box of 8 Rolls

## COMPACT 250

### TECHNICAL SPECIFICATIONS

#### Baler Dimensions

Height	2.78m
Width	1.73m
Depth	1.0m
Weight	985 Kgs
Transportation Height	2.25m

Power Supply	220-230v single phase
--------------	--------------------------

Motor	2.2 Kw Motor
-------	--------------

Pressing Force	Up to 15 Tonnes
----------------	--------------------

Noise Level	74 Decibels	Cycle Time	45 Seconds
-------------	-------------	------------	------------

#### Loading Aperture Sizes

Height	0.66m
Width	1.2m

#### Bale Dimensions

Height	1.0m
Width	1.2m
Depth	0.8m
Weight	150-250 Kgs (depending on type of material used)

### Features

- Bale weight output 150-250 Kgs
- Retaining claws to prevent spring back
- Powered by a standard 16 amp plug (single phase)
- Fully automated bale ejector makes bale ejection clean and simple
- Ideal for use where there are medium to large volumes of material

PRICE: €7750.00

## COMPACT 450

### TECHNICAL SPECIFICATIONS

#### Baler Dimensions

Height:	3.00 m
Width:	1.73 m
Depth:	1.0 m
Weight:	1075 Kgs
Transportation Height:	2.3 m
Power Supply:	3 Phase 400 volt
Motor:	11 Kw Motor, 32amp
Pressing Force:	Up to 25 Tonnes
Noise Level:	75 Decibels

#### Loading Aperture Sizes

Height:	0.66 m
Width:	1.2 m

#### Bale Dimensions:

Height	1.0 m
Width	1.2 m
Depth	0.8 m
Bale Weight:	350-450Kgs (depending on type of material used)

Cycle Time:	40 Seconds

PRICE: €9050.00

# Compact 75 Twin Chamber Baling Press

### TECHNICAL SPECIFICATION

#### Baler Dimensions

Height	1.978 m
Width	2.050 m
Depth	0.820 m
Weight	562 Kgs
Transportation Height	1.978 m
Power supply	Single Phase 220-240 Volt
Motor	1.5 Kw Motor,
Pressing force	Up to 3.5 Tonnes
Noise level	72 Decibels

#### Loading Aperture Sizes

Width	0.7 m
Depth	0.5 m

#### Bale Dimensions

Height	1.0 m
Width	0.7 m
Depth	0.5 m
Weight	75 Kgs (depending on type of material used)
Cycle Time	35 Seconds

PRICE: €5125.00

# 1100 Litre Bin Press

### TECHNICAL SPECIFICATION

Compaction Cycle Time:	25 Seconds
Compaction Force:	2 tonne
Compaction System:	Electro Hydraulic
Compaction Ratio:	3.1 Depending upon material used
Safety Features:	2 handed operation
Machine Dimensions:	1160mm wide x 1350mm deep x 2120mm high
Control Panel:	On/off switch, two button control.
Power Supply:	220-240 volt 50HZ single phase
Motor:	1.5KW motor
Machine weight:	270 kg
Platen Size:	960 x 670 mm
PRICE:	€4100.00

## INDUSTRIAL STRENGTH DUST EXTRACTOR

***Stops harmful dust being inhaled and eliminates dusty workshops***

***Improves workshop conditions during:***

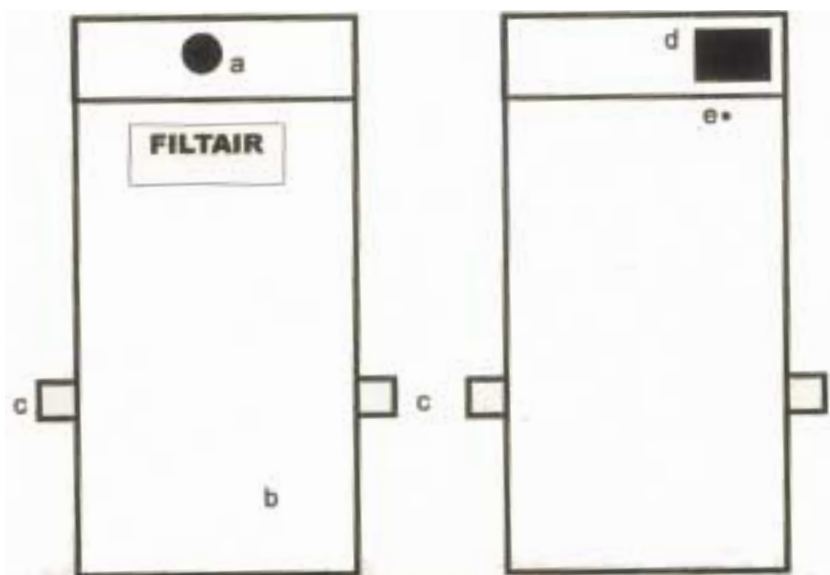

- Grinding
- Polishing
- Lapping
- Sharpening
- Planing
- Routing
- Sawing

The FILTAIR 2 is a continuously rated extraction machine designed to be connected to many dust producing sources.

The Filtair 2 extracts the contaminated air from the work area and passes it through re-usable fabric filters to remove the dust. Cleaned air is ducted to the rear of the machine for return to the workshop area and the residue falls into the catchment tray at the base.

***Quick to install and easy to use, connect up the pipes, plug in and GO.***

### **FILTAIR 2 Dust extractor**

a = Shaker knob

b = Filter cover

c = Suction inlets 75 mm Ø

d = Air outlet

e = Power Cable

Height, floor to work top = 885 mm

Maximum width - 540 mm

Maximum front to rear = 520 mm

(570 mm with sound diffuser)

Weight = 42 Kgs nett

Sound level: 80dB at one metre

Sound level with acoustic deflector 70dB

Extractor motor: 200cfm (.095 m<sup>3</sup>/second

0.5 hp (.37kw) 3.1A IP64. Cap. 16µF

Voltage 220 - 240 volts 50 / 60 Hz

€1469.00

## INDUSTRIAL FUME CABINETS

### Removes Dangerous Fumes from Acids, Alkalis & Solvents in the workplace

**Complies with Health and Safety recommendations.**

**Our range of economic fume enclosures have many applications in the control of toxic or obnoxious materials. Fabricated in Polypropylene they are resistant to almost every chemical encountered.**

- Fume resistant fans with top outlet spigot.
- Clear unbreakable Polycarbonate doors available.
- Interior sealed lighting on most models.
- High impact resistant beige textured polypropylene, welded fabrication with lip to create a bund to prevent spills coming into contact with the operator.
- Window / wall plate for exhausting air / fumes to atmosphere.
- PVC flexible fume duct with pipe clips available.
- Wired to plug into a 13 amp single phase power supply.

**Polypropylene is unique in its chemical resistance and has the ability to withstand temperatures up to 120°C. Impact resistance is very high and the material can be regarded as unbreakable.**

**STANDARD SIZES:** Base unit, with fan and light, screens or doors available as extras.

<b>Size 0</b>	35 cms wide x 40 cms deep x 50 cms high (Light not fitted),	Ref no X1009-0	€481.00
<b>Size 1</b>	61 cms wide x 40 cms deep x 50 cms high,	Ref no X1009-1	€854.00
<b>Size 2</b>	72 cms wide x 50 cms deep x 80 cms high,	Ref no X1009-2	€1045.00
<b>Size 3</b>	122 cms wide x 60 cms deep x 80 cms high,	Ref no X1009-3	€1203.00
<b>Size 4</b>	122 cms wide x 70 cms deep x 1000 cms high,	Ref no X1009-4	€1469.00

*Other sizes available to your requirements in Polypropylene, Steel and Stainless steel.*

## OTHER EQUIPMENT AVAILABLE

### Polishing and Grinding Machines

### Grinding Enclosures

Protects eyes and lungs from dust and particle inhalation. Used in many applications where dust is produced.

### Smoke and Heat Cabinets

in coated steel, 4 standard sizes or custom built to your needs.

### Deburring, Polishing & Grinding Barrel Machines

*Please contact our Sales Office to discuss your particular requirements.*

## BENCH TOP POWER SUPPLIES

DC supply units suitable for laboratory work where a reliable and accurate DC supply is needed.

Models available up to 60 amps output at a very competitive price.

- Constant current and voltage controls
- Short circuit protection
- Voltage and current stabilisation
- Small footprint with large output
- Fan cooled, 100% duty cycle
- Current is pre-settable before connection
- Decimal point digital meters

### MODELS AVAILABLE:

10A	12V	DC	€478
25A	12V	DC	€590
60A	15V	DC	€825

## FORGES AND HEARTHES

For **Soldering, Melting, Enamelling, Annealing**

Strong rigid powder coated steel fabricated FORGES to contain heat from torches. Fitted with HEAT REFLECTIVE SILICA BASE.

Adjustable feet included to allow for floor irregularities and ensure rigidity. Shipped partially flat pack, legs easily assembled with screwdrivers and pliers.

### FORGE SIZES:

**Size 1 Forge:** (Mounted on legs to give a 90 cms working height)  
Working Area 60 x 60 wide, with 60 cms side and rear screens €791.00

**Size 2 Forge:** (Mounted on legs to give a 90 cms working height)  
Working Area 60 x 90 wide, with 60 cms side and rear screens €952.00

**Size 3 Forge:** (Mounted on legs to give a 90 cms working height)  
Working Area 60 x 120, with 90 cms side and rear screens €1101.00

## Rotating HEARTHES with HEAT REFLECTIVE SILICA base

<b>SIZES:</b>	<b>Size 1 Hearth:</b> Working Area 25 x 25 wide x 7 cms deep (Height with base 15 cm.)	€113.00
	<b>Size 2 Hearth:</b> Working Area 42 x 42 wide x 9 cms deep (Height with base 18 cm.)	€146.00
	<b>Size 3 Hearth:</b> Working Area 50 x 50 wide x 9 cms deep (Height with base 18 cm.)	€228.00

# PORTABLE ALUMINIUM GANTRY CRANE

Alu-Lift® Portable Aluminium Gantries are the ultimate in lightweight construction for ease of portability. These gantries are ideal when you require constant assembly and disassembly, such as use by site personnel or for an emergency lift in a difficult location. A small 500kg Gantry weighs only 55kgs and can be taken apart in minutes.

## EASY TO ASSEMBLE

When in position simply slot the 2 beam housings on to the 'A' frame legs.

Using the safety pin supplied lock the legs to the beam member.

Affix hoist/hoist trolley to beam. (If required hoist and hoist trolley can be supplied, consult our sales office for details.)

Set to correct height to suit equipment being fitted.

Within a matter of minutes the complete Gantry Crane is ready for use.

Available in 500kg, 1000kg and 2000kg capacities and feature:

- Height adjustable by 900mm on 500kg models and 580mm on 1000kg and 2000kg models.
- Spans from 2.44m - 5.87m with infinite span adjustment along the beam.
- 2 straps for securing gantry during transit.
- Maximum 1.4m Wheel Base ideal for loading in vans/vehicles.
- 4 position swivel lock castors, 2 with brake units. (Wheels are non scuff moulded polyurethane tyred to give maximum protection against marking floors, cracking and chipping). (Wheel Dia: 152mm, all models)
- Corrosion resistant and suitable for use in refrigeration areas, clean rooms and other temperature controlled environments.

## VOYAGER STACKERS

This machine is made to a high specification using aluminium and has a webbing lifting medium instead of chain or cable thus making it very suitable for food production, pharmaceutical and clean environment areas. The manual model has a new improved pump and all standard models fit through a normal doorway (1980mm). Complete with battery and charger. Many other models available P.O.A.
